Counsel Comment

Faith Pettis, the Commission's General Counsel, reiterated that due to the possible elimination of private activity bonds (PABs) at the end of the year that the Commission is being asked to expedite its usual bond approval process for the Commission's December meetings. Today the Commission will be holding hearings on a number of projects and will also be asked to consider resolutions for those projects. Unlike a typical bond issue, not all of the final approvals for the projects will be in place prior to the resolution, although each borrower will have a purchase and sale agreement for the property and will have a lender. The proceeds of the bonds and notes will be held in escrow until the lender has completed its due diligence and the borrower is prepared to purchase the property.
