INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners Washington State Housing Finance Commission

We have audited the accompanying statements of net assets of the Washington State Housing Finance Commission as of June 30, 2007 and 2006 and the related statements of revenues, expenses and changes in net assets and of cash flows for the years then ended. These financial statements are the responsibility of the Washington State Housing Finance Commission management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Washington State Housing Finance Commission as of June 30, 2007 and 2006, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying Management's Discussion and Analysis on pages 3 through 9 is not a required part of the financial statements but is supplementary information required by the Governmental Accounting Standards Board. This supplementary information is the responsibility of the Washington State Housing Finance Commission management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental information, which is the responsibility of the Washington State Housing Finance Commission management, has been subjected to the procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Seattle, Washington January 25, 2008

Moss Adams LLP

As management of the Washington State Housing Finance Commission (the "Commission"), we offer readers of the Commission's financial statements this narrative overview and analysis of the financial activities of the Commission for the year ended June 30, 2007. This overview and analysis is required by accounting principles generally accepted in the United States of America Generally Accepted Accounting Principles ("GAAP") in Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments ("GASB 34").

FINANCIAL HIGHLIGHTS

During the fiscal year ended or as of June 30, 2007 ("FY 2007"):

- Net assets increased \$2.7 million to \$68.8 million primarily due to the increase in the Program Investment Fund (\$6.5 million) and the current year expense over revenues in the bond program (\$3.7 million). The loss in bond program net assets was caused by the recognition of unrealized losses on mortgage-backed securities (\$4.4 million).
- Issuances of bonds to fund mortgages for projects in process resulted in investments increasing \$246.6 million in bond programs investments.
- Mortgage-backed securities ("MBS"), net, increased by \$268.7 million, primarily due to the
 increase in purchases of MBS pools made available by the new bond issues within the single
 family program. The increase is offset by the unrealized loss (\$4.4 million) in FY 2007 occurring
 in adjusting mortgage-backed securities to market value at year end. Gains and losses in adjusting
 mortgage-backed securities to market value are unrealized, but must be recognized in the current
 year according to Generally Accepted Accounting Principles ("GAAP").
- Mortgage loans, net of discounts, premium, deferred commitment fees, and unamortized bond insurance premium increased \$433.6 million due to draws of funds from recently issued bonds.
- Total bonds and notes payable of \$3,698.2 million were outstanding, net of premiums and discounts. This is a net increase of \$985.7 million (36.3%) from the net effect of the issuance of bonds (\$1,364.2 million) and a decrease from principal payments on bonds (\$378.5 million).
- Total revenues increased \$67.4 million, due to a decrease in the fair market value of mortgage-backed securities of \$4.4 million as compared to a decrease of \$35.2 million in 2006, and a net increase in interest and other income (\$36.6 million) resulting from increases in the amount of the mortgage-backed securities held and mortgage loans outstanding. Total expenses increased \$35.8 million due primarily to increases in bond interest expense related to the increase in bonds and notes outstanding and higher rates on variable rate debt.
- The increase in net assets in the Program Investment Fund of \$6.5 million resulted from operating income of \$.5 million and a \$5.9 million transfer of net assets from the General Operating Fund.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements consist of three parts: Management's Discussion and Analysis, the basic financial statements, and the supplementary schedules. The financial statements are presented in a manner similar to that of a private business, using the economic resources measurement focus and the accrual basis of accounting.

The financial statements report information for all Commission programs and operations. The statement of net assets includes all of the Commission's assets and liabilities. All of the revenues and expenses of the Commission are accounted for in the statement of revenues, expenses, and changes in net assets. Program financial statements are presented as supplementary schedules. These schedules separate the financial statements into bond programs, program investment fund, and general operations.

FINANCIAL ANALYSIS OF THE COMMISSION

Statements of Net Assets

The following table summarizes the changes in assets, liabilities, and net assets between June 30, 2007 and 2006 (in millions):

	2007	2006	Chang	ge
Assets				
Cash and cash equivalents	\$ 216.5	\$ 116.1	\$ 100.4	86.5%
Investments	663.9	417.3	246.6	59.1
Accrued interest receivable	24.3	14.0	10.3	73.6
Fees receivable, net	0.6	0.9	(0.3)	(33.3)
Other receivables	0.2	0.4	(0.2)	(50.0)
Mortgage-backed securities, net	813.4	544.7	268.7	49.3
Mortgage loans, net	2,096.8	1,663.2	433.6	26.1
Unamortized bond issuance costs	88.2	70.5	17.7	25.1
Prepaid fees and other	 2.4	2.8	 (0.4)	(14.3)
Total assets	\$ 3,906.3	\$ 2,829.9	\$ 1,076.4	38.0%

Statements of Net Assets (Continued)

	2007 2006		Change			
Liabilities						
Accounts payable and other liabilities	\$	105.1	\$	32.5	\$ 72.6	223.4%
Accrued interest payable		22.4		16.7	5.7	34.1
Accrued arbitrage rebate		0.8		0.3	0.5	166.7
Deferred revenue		1.5		0.7	0.8	114.3
Project equity held for borrower		9.5		1.1	8.4	763.6
Notes payable and bond fund financing		26.4		39.5	(13.1)	(33.2)
Bonds payable, net		3,671.8	2	2,673.0	998.8	37.4
Total liabilities	\$	3,837.5	\$ 2	2,763.8	\$ 1,073.7	38.8%
Net assets						
Restricted						
Bond operations	\$	6.3	\$	10.0	\$ (3.7)	(37.0%)
Grants and donations to PIF		0.5		0.6	(0.1)	(16.7)
Invested in capital assets		0.3		0.2	0.1	50.0
Unrestricted						
General operations		17.7		17.8	(0.1)	(0.6)
Program Investment Fund		44.0		37.5	6.5	17.3
Total net assets	\$	68.8	\$	66.1	\$ 2.7	4.1%

The net assets of the Commission increased by \$2.7 million, or 4.1%, from the June 30, 2006 amount. Net assets increased due to an increase in the PIF net assets resulting from operating income of \$0.5 million and \$5.9 million operating income from the General Operating Fund. However, this increase was partially offset due to the change in unrealized loss on mortgage-backed securities (\$4.4 million) that, while required to be recognized by accounting standards, is not expected to be realized.

Net assets of the bond programs are classified as restricted because the uses of the funds are directed by trust indentures. The Commission has designated a General Operating Fund reserve dedicated to maintaining its future commitments and ensuring its ability to meet unforeseen fiscal or legal challenges. Additionally, it has created the Program Investment Fund to make strategic investments in higher-risk programs to support the financing and production of low-income housing, special needs housing, and facilities that provide community services primarily to low-income persons. The total amount designated for this purpose is \$44.0 million.

Statements of Revenues, Expenses, and Changes in Net Assets

The following table summarizes the changes in revenues and expenses between 2007 and 2006 (in millions):

	2007	2006	Chan	ge
Revenues			'	
Bond programs mortgage interest	\$ 133.5	\$ 102.3	\$ 31.2	30.5%
Bond programs investments and other income	12.1	12.2	(0.1)	(0.8)
Bond program gain (loss) on				
mortgage-backed securities	(4.4)	(35.2)	30.8	87.5
Program fees	22.8	18.5	4.3	23.2
General Operating Fund interest income	1.8	0.6	1.2	200.0
Total revenues	\$ 165.8	\$ 98.4	\$ 67.4	68.5%
Expenses				
Bond programs interest expense	\$ 144.8	\$ 109.6	\$ 35.2	32.1%
Other bond programs expenses	10.3	9.5	0.8	8.4
Salaries and wages	5.1	4.9	0.2	4.1
Other General Operating Fund and				
Program Investment Fund expenses	2.9	3.3	(0.4)	(12.1)
Total expenses	\$ 163.1	\$ 127.3	\$ 35.8	28.1%
Change in net assets	\$ 2.7	\$ (28.9)	\$ 31.6	109.3%

Mortgage related interest earnings (\$133.5 million) and bond interest expense (\$144.8 million) are the primary components of total revenues and expenses, respectively, for the bond programs. The Commission's revenues in the General Operating Fund were primarily generated from issuer fees (\$11.9 million).

DEBT ADMINISTRATION

The Commission has long-term debt obligations of \$3,698.2 million, net of bond premium and discounts at June 30, 2007. The Commission's bond funds are held by a trustee or paying agent who ensures that bond resolution requirements are met, including payments of debt service and funding of necessary reserves. At June 30, 2007, amounts held by the trustees and paying agents represent full funding of these requirements.

Most of the debt issued by the Commission is tax-exempt and is issued under the Internal Revenue Code and Treasury Regulations governing either mortgage revenue bonds or residential rental projects. The Federal Tax Reform Act of 1986 imposes an annual ceiling on the aggregate amount of federally tax-exempt private activity bonds, including bonds for housing, student loans, exempt facilities, small issue industrial, redevelopment, and certain public utility projects that may be issued during any calendar year by or on behalf of states and their political subdivisions. The private-activity volume cap received by Washington State is allocated to eligible issuers pursuant to the Revised Code of Washington Chapter 39.86. The Commission's single-family and multifamily programs rely on private activity bonds subject to this volume cap. Bonds issued under the nonprofit facilities program are private activity bonds, which are not subject to this cap.

The Commission's ability to recycle tax-exempt debt is limited by the Code of Federal Regulations, title 26, commonly known as the ten-year rule, which prohibits refunding of mortgage prepayments received more than ten years after the date of issuance of the bonds. The Commission also issues limited amounts of taxable debt in order to supplement its tax-exempt authority and for lending under programs where federal restrictions are inconsistent with the program requirements.

The Commissioners have adopted policies that govern the process followed to issue debt. All bonds issued in the single-family program are backed by Fannie Mae, Ginnie Mae, or Freddie Mac securities and are rated either an Aaa by Moody's Investors Service or AAA by Standard and Poor's Ratings Services. Multifamily and nonprofit publicly sold bond issues generally must have a minimum initial A rating by one of the major rating agencies.

The Commission continually investigates and uses available debt management techniques to achieve its goals of reducing interest expense and preserving the maximum amount of bonding authority. The Commission retires high interest rate debt as opportunities for economic refunding occur, and for preservation of bonding authority.

The Commission's outstanding debt is limited to four and one half billion dollars by the Revised Code of Washington Section 43.180.160. The Commission has no general obligation bonds and does not currently have an issuer credit rating.

Net bonds and notes payable as of June 30, 2007 was \$3,698.2 million, an increase of \$985.7 million from 2006. Changes by program are summarized in the following table:

	2006	Issued	Redeemed	Changes	2007
Single-Family	\$ 738.1	\$ 439.7	\$ (213.5)	\$ 226.2	\$ 964.3
Multifamily Housing	1,195.9	221.0	(43.0)	178.0	1,373.9
Nonprofit Housing	432.7	569.7	(81.2)	488.5	921.2
Nonprofit Facilities	345.8	133.8	(40.8)	93.0	438.8
	\$ 2,712.5	\$ 1,364.2	\$ (378.5)	\$ 985.7	\$ 3,698.2

COMPARISON OF FISCAL YEARS 2006 WITH 2005

The following summarizes the changes in combined net income between fiscal years 2006 and 2005 (in millions):

	2006	2005	Cha	ınge
Revenues	 	 		
Bond programs mortgage interest	\$ 102.3	\$ 82.0	\$ 20.3	24.8%
Bond programs investments and				
other income	12.2	9.1	3.1	34.1
Bond program gain (loss) on				
mortgage-backed securities	(35.2)	3.4	(38.6)	(1,135.3)
Program fees	18.5	15.3	3.2	20.9
General Operating Fund interest income	 0.6	0.9	 (0.3)	(33.3)
Total revenues	\$ 98.4	\$ 110.7	\$ (12.3)	(11.1%)
Expenses				
Bond programs interest expense	\$ 109.6	\$ 87.5	\$ 22.1	25.3%
Other bond programs expenses	9.5	9.5	-	-
Salaries and wages	4.9	4.4	0.5	11.4
Other General Operating Fund and				
Program Investment Fund expenses	3.3	 3.4	(0.1)	(2.9)
Total expenses	\$ 127.3	\$ 104.8	\$ 22.5	21.5%
Change in net assets	\$ (28.9)	\$ 5.9	\$ (34.8)	(589.8%)

During the fiscal year ended June 30, 2006 the Commission's combined total assets increased by \$272.9 million, attributable to the increase in mortgage loans and investments resulting from increased bond issuances activities during the year. Combined total net loss of \$28.9 million for fiscal year ended June 30, 2006 decreased the Commission's total net assets by \$34.8 million or 589.8% resulting primarily from the 2006 \$35.2 million unrealized loss on mortgage-backed securities (MBS) as compared to the 2005 unrealized gain on MBS of \$3.4 million.

The Commission's combined change in net assets for 2006 was \$(28.9) as compared to \$5.9 million for 2005 resulting from an increase in bond activity revenues in 2006 as well as the previously noted significant impact of the unrealized change in the market value of the MBS that, while required to be recognized by accounting standards, is not expected to be realized.

ADDITIONAL INFORMATION

Questions and inquiries may be directed to the Senior Director of Finance or the Senior Controller at Washington State Housing Finance Commission, 1000 2nd Avenue, Suite 2700, Seattle, Washington 98104 (206-464-7139).

Note 1 - Description of Business

Organization - The Washington State Housing Finance Commission (the "Commission") was created in 1983 by the legislature of the state of Washington (the "State") to "act as a financial conduit which, without using public funds or lending the credit of the state or local government, can issue nonrecourse revenue bonds and participate in federal, state, and local housing programs thereby making additional funds available at affordable rates to help provide housing throughout the state." In March 1990, the state legislature authorized the Commission to issue bonds to finance or refinance nursing homes and capital facilities owned and operated by nonprofit corporations. The Commission's debt limit is \$4.5 billion.

The Commission has 11 voting members. Two commissioners, the state treasurer and the director of the Department of Community, Trade and Economic Development, serve ex officio, by virtue of their office. Eight members are appointed by the governor to a four-year term. The chair of the Commission is appointed by, and serves at the pleasure of, the governor.

The Commission is legally separate from the State. The Commission does not receive state appropriations and does not impose a financial burden on, nor accrue any financial benefit to, the State. Legal restrictions on the Washington State legislature's ability to impose its will on the Commission and the inability of the governor to remove the majority of the voting members of the Commission prevent the State from being considered to be financially accountable for the Commission. However, in the State's Comprehensive Annual Financial Report ("CAFR"), the Commission is presented as a discrete component unit of the State.

Program Funds

The Commission summarizes its financial activities in three funds: General Operating, Bond, and Program Investment.

General Operating Fund: The General Operating Fund was established by the Commission to account for the fiscal activities related to the administration of its ongoing program responsibilities. Revenues of the General Operating Fund are derived primarily from fees earned on bond issues, tax credit allocations, compliance monitoring, and interest income on operating and Program Investment Fund investments. All funds received by the Commission are generated by its activities. Expenditures are not appropriations from the State.

The Commission first adopted a General Operating Fund Reserve Policy in 1989. The current policy requires the maintenance of general reserves of \$18 million based upon capital adequacy analyses. General reserves provide income to fund current operations, help to ensure a sufficient revenue stream for the Commission to remain independent of State funds, and safeguard the Commission's ability to meet its future legal and program obligations.

Note 1 - Description of Business (Continued)

<u>Program Investment Fund</u>: The Commission established its Program Investment Fund in 1989. This fund represents Commission reserves above those required by the General Operating Fund Reserve Policy and is strategically invested in programs to support the financing and production of low-income housing, special needs housing, and facilities that provide community services. This fund includes investments by other funders for use in established down payment assistance programs.

Bond Program Fund: All activities of Commission-issued bond transactions are established under separate Indentures of Trust. All financial activities of these Indentures are recorded by the Commission in this fund. Further, the Commission summarizes its bond activities by program type as follows:

Single-Family Home Ownership Program: These funds, established under one trust indenture and series indentures, account for the proceeds from the sale of Single-Family Mortgage Revenue Bonds and the debt service requirements of these bonds. Activities of these funds are, in general, limited to the purchase of mortgage-backed securities (MBS) containing pools of certain mortgage loans secured by mortgages on Single-Family, owner-occupied, new or existing residential housing located in Washington State. The bonds, which constitute a special obligation of the Commission, are payable solely from the bond funds established pursuant to the indenture, and are funded primarily from payments received from the MBS pool and from any other money held by the bond trustee pursuant to the indenture. As such, the assets of the bond are pledged as collateral for the debt. As of June 30, 2007, the assets so pledged were \$961.2 million.

Loans in the programs are made to first-time homebuyers (except for those in targeted areas) whose income does not exceed the limits established by the Commission. Mortgage rates for these programs are:

Bond Issue	Rate	Bond Issue	Rate	Bond Issue	Rate
1997 4A/4N/4T	* 6.55	2000 4A/4T	5.50, 5.99, 6.30 & 6.95	2004 3A	5.2 to 5.6

^{*} Capital Appreciation Bonds

Note 1 - Description of Business (Continued)

Conduit Financing Programs: The financial activities of all Commission-issued bonds, including the proceeds from the sale of mortgage revenue bonds and the debt service requirements of these bonds, are recorded in the bond fund. Except for Single Family bonds, discussed above, all bonds issued by the Commission are conduit debt, i.e., limited-obligation bonds issued by the Commission for the express purpose of providing financing for a specific third party that is not a part of the Commission's financial reporting entity. Financing proceeds for the Conduit Financing Programs are used by to purchase qualified mortgages and mortgage-backed securities from mortgage lenders. The issuer of the mortgage-backed securities, the mortgagor, or the letter of credit provider will pay the bond trustee principal and interest in amounts calculated to meet periodic debt service payments on the bonds.

Although the conduit debt securities bear the name of the Commission, it has no obligation for such debt beyond the resources provided by the lease or loan with the third party on whose behalf they are issued.

At the time of conduit bond issuance, the Commission assigns its rights, title, and interest in the loan agreement (with certain exceptions and reservations), and in any collateral securing the loan, to a bond trustee pursuant to a trust indenture. The bond trustee administers the bond issue. The bonds, which constitute a special obligation of the Commission, are payable solely from the bond fund established pursuant to the indenture, and are funded primarily from payments made by the borrower to satisfy the loan agreement and from any other money held by the bond trustee pursuant to the indenture. As such, the assets of each bond are pledged as collateral for the debt. As of June 30, 2007, the assets so pledged were \$2.86 billion.

The obligation of the borrower to repay the loan is absolute and unconditional. The bonds do not constitute a general, moral, or special obligation of the state of Washington, a pledge of the faith and credit of the state, or a general obligation of the Commission. The owners of the bonds have no right to require the state of Washington or the Commission, nor has the state of Washington or the Commission any obligation or legal authorization to levy any taxes or appropriate or expend any of its funds for the payment of principal thereof, premium, if any, or interest thereon.

Private placement notes are those issued and privately placed directly by the Commission with a financial institution or other sophisticated investor. The proceeds those notes are used to finance construction or rehabilitation and permanent loans on multifamily rental housing projects. The tax-exempt notes are funded by the investors at such time as disbursements are made for acquisition, construction, or rehabilitation.

Note 1 - Description of Business (Continued)

<u>Multifamily Housing Program</u>: These funds account for financing issued on behalf of developers of multifamily housing. The funds are used to purchase, construct, refinance, and/or remodel projects containing affordable housing and housing for the elderly. Activities of these funds also include the purchase, construction, refinancing, and/or remodeling of continuing care retirement communities and nursing homes.

Nonprofit Housing Program: These funds account for bonds and notes issued on behalf of nonprofit housing organizations. The funds are used to purchase, construct, refinance, and/or remodel projects containing low-income housing.

Nonprofit Facilities Program: These funds account for the bonds and notes sold to purchase loans of organizations. The loans, which may be secured by real and/or personal property, are used by 501(c)(3) organizations for capital acquisitions and/or improvements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the Commission have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Commission has applied all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989 (unless they conflict with or contradict GASB pronouncements): Statements and Interpretations of the Financial Accounting Standards Board, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure. The more significant of the Commission's accounting policies are described below.

Measurement Focus and Basis of Accounting - All accounts and transactions of the Commission are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses, and changes in net assets for all funds present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. These funds utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Note 2 - Summary of Significant Accounting Policies (Continued)

Unclassified Balance Sheet - The Commission's business cycle is greater than one year. As such, all assets and liabilities as shown on the Statement of Net Assets are unclassified..

Cash and Cash Equivalents - Cash deposits in the bond fund are held in the corporate trust departments of commercial banks in the bond issue's name. The total amount of uncollateralized or uninsured cash equivalents in the bond fund is \$53.6 million as of June 30, 2007. Cash deposits held by the General Operating Fund are entirely covered by the Federal Depository Insurance Corporation ("FDIC") or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protection Commission ("PDPC"). For purposes of the statements of cash flows, the Commission considers all highly liquid, interest-bearing instruments purchased with an original maturity of three months or less to be cash and cash equivalents.

Investments - Investments in the General Operating and Program Investment Funds are managed by First American Funds and are comprised of securities issued or guaranteed by the U.S. government. These marketable securities are valued at fair value based upon quoted market prices as of June 30, 2007 and 2006. Guaranteed investment contracts held in the Restricted Bond Funds are non-participating and therefore stated at cost as the redemption terms are not affected by market rates. At June 30, 2007, commercial paper was held by the trustee for five multifamily bond issues and is stated at market value at year end. No such investments were held in the year ended June 30, 2006.

Mortgage-Backed Securities - Mortgage-backed securities are presented at their fair value based on quoted market prices as of June 30, 2007 and 2006.

Mortgage Loans, Net - Mortgage loans, net are stated at their unpaid principal balance, increased by mortgage premiums or reduced by unearned discounts, and reduced by deferred commitment fees and unamortized bond insurance premiums over the life of the loan.

Provision for Possible Loan Losses - The mortgage loans and mortgage-backed securities are funded by the Single-Family Program, Multifamily Housing Program, Nonprofit Housing Program and Nonprofit Facilities Program bonds which are non-recourse revenue bonds payable solely from the assets specifically pledged under the trust indenture with respect to such bonds. No assets of the Commission, other than those assets held under such trust indentures, are pledged to payment of the bonds.

Note 2 - Summary of Significant Accounting Policies (Continued)

<u>Single Family Mortgage Loans</u> - No loan loss provisions have been considered necessary, as the current assets held by all the outstanding Single-Family indentures are mortgage-backed securities, of which payment is guaranteed.

Multifamily and Nonprofit Housing Mortgage Loans - No loan loss provisions have been considered necessary as most of the Commission's multifamily bond issues obtain credit enhancement from a third party that pays or secures the payment of principal and interest on the bonds. However, in some programs, the only collateral for the payment of principal and interest is the real estate loan. The Commission has generally limited investment in such bonds to a small number of bond owners, who must be sophisticated investors that have underwritten the real estate loan. These investors have authority under the bond documents to enforce remedies against the projects to protect their interests as investors. These limited investor bond issues include private placements and bond fund issues. On issues where there have been delinquencies in the payment of debt service, workout agreements have been reached between the bond owner/investor and the borrower.

Nonprofit Capital Facilities Mortgage Loans - No loan loss provisions have been considered necessary as the majority of nonprofit capital facilities loans are backed by letters of credit from banks. In addition, the nonprofit capital facilities program has bond issues where the loan is the direct collateral for repayment of bond principal and interest, similar to the multifamily loans previously discussed. These issues have been sold to a limited number of sophisticated investors.

<u>Program Investment Fund</u> - The Commission provides for estimated losses on loans in its Program Investment Fund based on its past loan loss experience, known and inherent risks in the portfolio and current economic conditions. The allowance for loan losses is increased by charges to expense and decreased by charge-offs (net of recoveries).

Other Assets - Furniture, fixtures, equipment and leasehold improvements are accounted for in the General Operating Fund and are stated at cost, less accumulated depreciation and amortization. The Commission's policy is to capitalize assets with a cost of \$5,000 or more. Depreciation and amortization are charged to current operations on the straight-line method over the estimated useful lives of the assets, generally between three and ten years. See Note 5 for additional information concerning furniture, fixtures and equipment.

Deferred Revenue - Deferred revenue represents the unearned portion of the Commission's compliance monitoring fees that are received in advance. These fees are recorded as other fee income on the statement of revenues, expenses and changes in net assets when earned.

Note 2 - Summary of Significant Accounting Policies (Continued)

Private Placement Notes - Private placement notes are tax-exempt notes issued and privately placed by the Commission with lenders, the proceeds of which are used to finance construction or rehabilitation and permanent loans on multifamily rental housing projects. The tax-exempt notes are funded by the investors at such time as disbursements are made for acquisition, construction, or rehabilitation.

Bonds Payable - Current interest serial and term bonds are stated at their principal amounts outstanding, net of unamortized bond discount, if any. Compound interest bonds, which are stated at their accreted values, represent amounts equal to the original offering price compounded at the original issue yield to maturity from the date of delivery of each issue to the respective balance sheet date. Certain bonds in the multifamily and nonprofit programs are variable rate bonds remarketed on a daily, weekly, or monthly basis and are subject to market rate fluctuation.

Unamortized Bond Issuance Cost, Unamortized Bond Premium and Unamortized Bond Discount - Unamortized bond issuance costs, unamortized bond premium and unamortized bond discounts are amortized using the bonds outstanding method.

Project Equity Held for Borrower - Project equity held for borrower represents funds contributed by the borrower to complete the bond issuance that are held in trust, pursuant to the terms of the indenture. The funds may be used for project expenditures or interest costs, or to fund reserve funds or lag deposits necessary to meet rating agency requirements. The funds are accounted for as a liability until such time as the funds are requisitioned and released to the borrower.

Compensated Absences - Permanent employees of the Commission earn annual leave in accordance with length of service. Generally, a maximum of 240 hours of annual leave may be accumulated. Upon termination, employees are entitled to compensation for their unused leave.

In addition, non-exception work period employees may earn compensatory time at the rate of time-and-one-half up to a maximum of 240 hours. Employees classified as exceptions work period employees may earn exchange time at the rate of actual time worked up to a maximum of 174 hours. Upon separation or transfer to another agency, the employee is given the opportunity to postpone his/her cessation of employment until the accumulated authorized compensatory or exchange time has been used.

Note 2 - Summary of Significant Accounting Policies (Continued)

Employees earn sick leave at the rate of one day per month and may be compensated for accumulated sick leave at the rate of 25% percent in many circumstances. In consideration of this, the Commission accrues all cost associated with compensated absences and 25% of sick leave, including an allowance for payroll taxes.

Net Assets - Net assets are classified into three components: Restricted, Invested in capital assets, net of related debt, and Unrestricted, defined as follows:

Restricted net assets have constraints placed on use by external parties such as creditors, grants, laws or regulations.

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation. The Commission does not hold any debt related to capital assets.

Unrestricted net assets consist of the remaining assets and liabilities.

Revenue Recognition - The primary source of revenue for the Commission is interest earned on its mortgage loans outstanding, mortgage-backed securities and other investments. This revenue is used to pay interest expense on the bonds outstanding.

In addition, the Commission earns fees on its bond issues, which are allocated to the Restricted Bond, General Operating, and Program Investment Funds and which are recorded as other fee income on the statement of revenues, expenses and changes in net assets. The Commission earned \$22,627,979 and \$18,051,195 in other fee income during the fiscal years ended June 30, 2007 and 2006, respectively. Other fee income is comprised of the following at June 30:

2007		2000
\$ 8,399,206	\$	5,498,143
6,942,090		6,088,103
7,286,683		6,464,949
\$ 22,627,979	\$	18,051,195
	\$ 8,399,206 6,942,090 7,286,683	\$ 8,399,206 \$ 6,942,090 7,286,683

2007

2006

Interest and fees are recognized on the accrual basis.

Income Taxes - The Commission, as an instrumentality of the state of Washington, is exempt from federal and state income taxes. Accordingly, no provision for income taxes is necessary.

Note 2 - Summary of Significant Accounting Policies (Continued)

Rebateable Arbitrage - Arbitrage earnings that are owed to the United States Department of the Treasury are recorded as accrued arbitrage rebate and based on calculations performed by an independent valuation specialist on an ongoing basis. This liability does not reflect any unrealized appreciation or depreciation as a result of recording investment securities at fair market value.

Use of Estimates - The preparation of the statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements. The Commission uses estimates in determining the allowance for doubtful accounts, arbitrage rebate liability, loan loss provisions, accrued sick leave and other contingencies. Actual results may differ from those estimates.

Note 3 - Investments

General Operating and Program Investment Funds

Investment Policy - While RCW 43.180.080(5) grants the Commission the authority to invest its funds, it provides no investment guidelines or restrictions. The State law generally limits the type and character of investment of "public funds." In light of the Commission's authorizing legislation, Washington State court decisions, and the sources of its dedicated funds, the Commission finds that the investment limitations on public funds do not apply to its dedicated funds. As a matter of policy, however, the Commission believes that, at this time, an appropriate course of conduct is to invest its dedicated funds in a manner consistent with the investment limitations on public funds. The Commission has entered into an agreement with First American Funds to manage the investment of a portion of the General Operating and Program Investment Funds' reserves, subject to the following policy.

The Commission may invest in non-governmental investments, including certificates of deposit, banker's acceptances, and repurchase agreements. In addition, the following governmental investments are eligible:

- 1. Treasury bills, notes, and other obligations issued by the United States Department of the Treasury and backed by the full faith and credit of the U.S. government.
- 2. Federal Home Loan Bank notes and bonds.
- 3. Federal Land Bank bonds.

Note 3 - Investments (Continued)

- 4. Federal National Mortgage Association notes, debentures, and guaranteed certificates of participation.
- The obligations of certain government-sponsored entities whose obligations are eligible as collateral for advances to member banks as determined by the Board of Governors of the Federal Reserve System.
- 6. Shares of mutual funds with portfolios consisting of only U.S. government bonds or U.S. government guaranteed bonds issued by federal agencies with average maturities of less than four years.

Limiting investments to those authorized with the policy minimizes the Commission's exposure to credit risk on general operating funds. The investments of the General Operating and Program Investment Funds are registered, or securities are held by the Commission's agent in the Commission's agent's name and therefore subject to custodial credit risk. However, the Commission addresses this custodial credit risk by pre-qualifying institutions with which the Commission places investments and maintaining a standard of quality for its investments.

Examining the maturities of the Commission's General Operating and Program Investment Fund securities can reveal information about interest rate risk. Cash, cash equivalents, and investment securities along with maturities of the Commission's debt securities, as of June 30, 2007 consist of the following:

<u>Cash, Cash Equivalents and Investment Securities - General Operations and Program</u> Investment Fund

		Maturities (In Years)						
Туре	Cost	Less than 0.5	0.5 - 1	1 - 2	2 - 10	More than 10		
Deposits	\$ 300,005	\$ 300,005	\$ -	\$ -	\$ -	\$ -		
Money market fund	5,021,805	5,021,805	-	-	-	-		
US Agencies	24,019,832	-	3,027,290	5,111,509	15,541,856	339,176		
US Treasuries	6,677,158			999,531	5,677,627			
	\$ 36,018,800	\$ 5,321,810	\$ 3,027,290	\$ 6,111,040	\$ 21,219,483	\$ 339,176		

Note 3 - Investments (Continued)

Bond Programs

The indenture for each bond issue outlines the permitted investments for that transaction. Generally, bond proceeds are invested in investment agreements with institutions whose credit rating is at least equivalent to the rating on the bonds being issued and for terms specified in the indentures. These investment agreements are binding agreements, but are not usually collateralized by specifically identified securities and, as such, are not tradable or subject to risk categorization. However, generally there are provisions that require the provider to collateralize the investment in the event the rating of the provider is downgraded below the required standard, thereby minimizing the Commission's exposure to credit risk within the bond funds. Guaranteed investment contracts are stated at cost as the redemption terms are not affected by market rates. Investments within the bond programs are held by the Trustee in the name of the bond issue, thereby minimizing custodial credit risk.

At June 30, 2007 a portion of bond proceeds for five multifamily bond issuances were invested in commercial paper and held by the trustee. At June 30, 2007, the total market value of the commercial paper was \$144.3 million. No such investments were held in the prior year ended June 30, 2006. Funds not in investment agreements or commercial paper are held in money market accounts in the name of the bond issuance. Although all of the program funds must be used for program purposes, certain other funds have been restricted for payment of debt service as required by the bond indentures.

The Commission places no limit on the amount that may be invested in any one investment agreement provider. The following table lists investments held by the Single Family Programs in issuers that represent 5% or more of the total investments held by the Single Family Program at June 30, 2007:

Investment Issuer	 Amount
Transamerican	\$ 37,294,206
Pallas Capital	\$ 112,457,327

Note 4 - Mortgage-Backed Securities

The bond proceeds for all Single-Family bond issues issued since 1988 have been used to purchase modified mortgage-backed securities in which principal and interest are guaranteed by either the Government National Mortgage Association ("Ginnie Mae") or the Federal National Mortgage Association ("Fannie Mae"), whose guarantee is backed by the full faith and credit of the U.S. government. Certain of the securities include variable rate mortgages; however, any interest rate risk is mitigated by the related variable rate bond issues with the same terms. Ten bonds in the Multifamily Housing Bond Program also contains mortgage-backed securities.

Note 4 - Mortgage-Backed Securities (Continued)

For the fiscal year ended June 30, 2007, the net decrease in fair market value from that of the prior year end, based upon quoted market price at the fiscal year end, was \$4,383,728. The following table shows the sources of the gains (losses) on mortgage-backed securities on the statements of revenue, expenses, and changes in net assets for 2007 and 2006 by program.

Gain (loss) on mortgage-backed securities as of June 30:

			2007				2006		
		Mu	ltifamily &			M	ultifamily &		
	Single-	N	on-Profit		Single-	1	Non-Profit		
	 Family	I	lousing	 Total	Family		Housing	_	Total
Unrealized gain (loss) due to				 	 				
adjustment to market value	\$ (4,787,894)	\$	404,166	\$ (4,383,728)	\$ (30,628,182)	\$	(4,540,101)	\$	(35,168,283)

Cumulative unrealized gains (loss) for fiscal years 2007 and 2006 are (\$29,090,229) and (\$24,706,501), respectively, and are included in the balance of mortgage-backed securities on the statement of net assets.

Note 5 - Furniture, Fixtures and Equipment

Furniture, fixtures and equipment as shown below at June 30, 2007 and 2006 are included in prepaid fees and other on the statements of net assets.

	Useful Life	July 1, 2005	Increase	Decrease	June 30, 2006
Furniture, fixtures and equipment Leasehold improvements Total assets Less accumulated depreciation	3 to 10 years 4 to 5 years	\$ 899,007 176,058 1,075,065 (844,563)	\$ 117,528 - 117,528 (104,173)	\$ - - -	\$ 1,016,535 176,058 1,192,593 (948,736)
Net book value		\$ 230,502	\$ 13,355	\$ -	\$ 243,857
	Useful Life	July 1, 2006	Increase	Decrease	June 30, 2007
Furniture, fixtures and equipment Leasehold improvements Total assets Less accumulated depreciation	3 to 10 years 4 to 5 years	\$ 1,016,535 176,058 1,192,593 (948,736)	\$ 163,902 163,902 (106,902)	\$ - - - -	\$ 1,180,437 176,058 1,356,495 (1,055,638)
Net book value		\$ 243,857	\$ 57,000	\$ -	\$ 300,857

Note 6 - Bonds and Notes Payable

Bonds issued by the Commission are limited obligations payable solely from and secured by a pledge of the mortgage loans (including any insurance payments made with respect thereto), restricted investments and undisbursed bond proceeds and the earnings thereon held under the indenture authorizing the bonds.

Interest Rate Swaps - On June 16, 2005, the Commission entered into an interest rate swap agreement in connection with issuing variable rate mortgage revenue bonds. The intention of the swap is to create debt with a synthetic, collared interest rate the range of which is lower than achievable from long-term fixed rate bonds to achieve the Commission's goal of lending to low- and moderate-income first-time home buyers at below market, fixed interest rates.

Using rates as of June 30, 2007, debt service requirements of the outstanding variable rate debt and associated net swap payments, assuming current interest rates remain the same for their term, are as follows. As rates vary, variable rate bond interest payments and net swap payments will vary.

				Interest Rate					
_	Fiscal Year	Pri	ncipal		Interest	Swa	ap, Net		Total
	2008	\$	-	\$	381,041	\$	-	\$	381,041
	2009		-		380,000		-		380,000
	2010		-		380,000		-		380,000
	2011		-		380,000		-		380,000
	2012		-		381,041		-		381,041
	2013		-		160,329		-		160,329

The terms and counterparty credit ratings of the outstanding swap as of June 30, 2007, are contained below. The notional amount of the swap matches the principal amount of the associated debt.

Associated	Current			Fixed				Swap	Co	ounterpart
Bond	Notional	Effe	ective	Rate	Rate	Fair	Ter	rmination		Credit
Series	Amount	D	ate	Paid	 Received	 Value		Date		Rating
2005 - S VR2	\$ 10,000,000	June 1	6, 2005	3.30%	SIFMA over	\$ 55,459	Decer	mber 1, 2012	I	AA2/P-1

Note 6 - Bonds and Notes Payable (Continued)

The maturity of the variable debt exceeds that of the swap by 24 years creating the risk that variable rates after the swap terminates may exceed the swap fixed rate to the Commission of 3.30% yet the Commission will not be able to obtain a subsequent interest rate agreement that limits interest to Securities Industry and Financial Markets Association (SIFMA), formerly Bond Market Association (BMA), rate of 3.92%.

The Commission's swap contract is based upon the International Swap Dealers Association Master Agreement, which includes standard termination events. The swap contract may be terminated by either party if the other party fails to perform under the terms of the contract. Upon termination, a payment is due to one party irrespective of causality based upon the market value of the swap. The potential termination risks to the Commission are the liability for a termination payment to the counterparty or the inability to replace the swap under favorable financial terms. To reduce the Commission's termination risk, the swap contract limits the counterparty's ability to terminate due to the following Commission actions or events: payment defaults, other defaults that remain uncured for 30 days after notice, bankruptcy and insolvency.

The terms of the swaps expose the Commission to potential credit risk with the counterparty upon the occurrence of a termination event. The swap agreements contain collateral requirements based upon counterparty credit ratings and the fair value of the swap. These bilateral requirements are established to mitigate potential credit risk exposure. These requirements were met as of June 30, 2007.

The Commission may incur amortization risk because the Commission may receive prepayments from the mortgage loans portfolio that cannot be used to call other bonds of the same Series or to cross-call into other Series. The flexibility of the Commissions operating policy and other series of bonds as well as the use of Planned Amortization Class (PAC) Bonds for restricted principal payments minimizes this risk. Additionally, the Commission may terminate the swaps at market value at any time.

The Commission incurs the potential risk that the variable interest payments on its bonds will not equal the variable interest receipts from its swaps. This basis risk exists because the Commission pays a variable rate on its AMT bonds based on a weekly remarking rate but, under the terms of its swap, received a variable rate based upon the weekly SIFMA rate, which is based upon AA non-AMT variable rate demand bonds. Basis risk will vary over time due to inter-market conditions. As of June 30, 2007, the interest rate on the Commission's variable rate debt was 3.80% per annum while the interest rate on the swap was 3.73% per annum. In order to reduce the cumulative effect of basis risk the variable rate determination structure included cash flow modeling with bond rate assumptions at ten basis points above SIFMA.

Note 6 - Bonds and Notes Payable (Continued)

The structure of the variable interest rate payments the Commission receives from its swap contract is based upon the historical long-term relationship between taxable and tax-exempt short-term interest rates. Tax risk represents a risk that may arise due to a chance in the tax code that may fundamentally alter this relationship. The Commission has chosen to assume this risk because it was not economically feasible to transfer to the swap counterparty.

Bond Defeasance - Bond defeasances in the Multifamily, Nonprofit Housing and Nonprofit Facilities programs are not disclosed since the cash flows and economic gain or loss accrues to the borrower and not the Commission as the issuer. In the Single Family bond program defeasance amounts are deposited in irrevocable trusts to provide for all future debt service payments on the bonds. Accordingly, neither the assets of the respective trust accounts or the liabilities for the defeased bonds are reflected in the Commission's financial statements. Funds held in the respective trust accounts are qualifying U.S. Government securities and are assumed sufficient to service and redeem the defeased bonds. The difference between the cost to defease outstanding debt and the carrying value of bonds defeased by refunding bonds is deferred and amortized over the shorter of the remaining term of the refunded bonds or the term of the refunding bonds, using the straight line-method.

No Single Family bonds were defeased during fiscal years ended June 30, 2007 or 2006.

As of June 30, 2007, the Commission had outstanding notes and bonds of \$3.7 billion bearing interest varying in rates as listed below:

	<u>Low</u>	<u>High</u>
Single Family Program	2.40%	5.95%
Multi Family Program	1.00	8.75
Non Profit Housing Program	3.25	8.00
Non Profit Facilities	3.20	7.48

Note 6 - Bonds and Notes Payable (Continued)

The bonds mature in varying amounts through 2048. Future principal and interest requirements are shown in the following table.

Fiscal Year Ending June 30:	otal Principal Redemptions	Total Interest Redemptions	Total Debt Service
2008	\$ 28,926,175	\$ 165,603,972	\$ 194,530,147
2009	29,312,654	164,863,329	194,175,983
2010	45,830,923	163,775,804	209,606,727
2011	77,191,803	160,872,252	238,064,055
2012	113,686,623	156,973,019	270,659,642
2013 - 2017	200,850,153	745,456,918	946,307,071
2018 - 2022	316,013,776	681,775,083	997,788,859
2023 - 2027	473,095,262	593,433,815	1,066,529,077
2028 - 2032	589,452,183	462,817,749	1,052,269,932
2033 - 2037	1,075,475,592	286,882,885	1,362,358,477
2038 - 2042	678,276,748	86,871,196	765,147,944
2043 - 2047	54,910,000	7,153,596	62,063,596
2048	8,997,205	267,920	 9,265,125
	\$ 3,692,019,097	\$ 3,676,747,538	\$ 7,368,766,635

Changes in bonds outstanding during the fiscal year ended June 30, 2007 are summarized in the following table:

June 30, 2006	Issued	Redeemed	June 30, 2007
\$ 2,709,098,262	\$ 1,361,460,352	\$ 378,539,517	\$ 3,692,019,097

Note 7 - Commitments

Mortgage Loans - The Commission has committed to purchase mortgage loans to the extent qualified loans are available under each of the programs currently in the acquisition phase. The Commission's commitments by program as of June 30, 2007 are shown below:

Program	 Amount			
Single-Family Housing Program	\$ 93,764,094			
Multifamily Housing Program	109,440,972			
Nonprofit Housing Program	341,266,370			
Nonprofit Facilities Program	 75,843,652			
	\$ 620,315,088			

Operating Lease - The Commission has lease commitments for office space on a long-term basis. Lease expense for the fiscal years ended June 30, 2007 and 2006 was \$669,749 and \$809,405, respectively. Commitments for future minimum lease payments are as follows:

For the Year Ending June 30:	_	
2008	\$	676,677
2009		676,950
2010		675,337
2011		669,861
	\$	2,698,825

Note 8 - Employee Benefit Plans

Deferred Compensation Plan - The State offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all Commission employees, permits them to defer a portion of their salaries until future years. The deferred compensation is paid to employees upon termination, retirement, death or unforeseeable emergency. The money is held under a separate fund by the State; therefore, neither an asset nor liability is recorded on the Commission's financial statements.

Note 8 - Employee Benefit Plans (Continued)

Retirement Plan - The Commission's employees participate in the Public Employees' Retirement System ("PERS") of the State. The legislature established PERS in 1947. PERS is a cost-sharing multiple-employer retirement system. Membership in the system includes elected officials; State employees; employees of the Supreme, Appeals and Superior Courts; employees of legislative committees; community college, college and university employees not in national higher education retirement programs such as TIAA/CREF; judges of district and municipal courts; noncertified employees of school districts, and employees of local government. Approximately 56% of PERS salaries are from State employment.

Commission employees may retire at the age of 65 with five years of service or at age 55 with 20 years of service, with an allowance of 2% per year of service of the average final salary (average final compensation is based on the greatest compensation during any consecutive 60-month period). Retirements prior to age 65 are actuarially reduced. There is no cap on years of service credit, and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3% annually.

PERS retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to PERS accrue interest at a rate specified by the Washington State Department of Retirement Systems ("DRS"). During the fiscal year 2007, the DRS-established rate of interest on employee contributions was 5.5%, compounded quarterly. Retirement benefit provisions are established in State statute and may be amended only by the State legislature. Employees in PERS can elect to withdraw total employee contributions and interest earnings thereon upon termination. PERS benefits are vested after an employee completes five years of eligible service.

Each biennium the legislature establishes employer and employee contribution rates. These rates are developed by the Office of the State Actuary to fully fund the plan. All employers are required to contribute at the level established by the legislature. The methods used to determine the contribution requirements are established under State statute in accordance with chapters RCW 41.40 and 41.45. The Commission and employee contributions to the pension plan are detailed below for the years ended June 30, 2007, 2006 and 2005:

		2007		2006		2005	
Gross covered salaries	\$	3,899,085	\$	3,831,299	\$	3,545,034	
Commission's contribution	\$	177,434	\$	93,484	\$	49,066	
Commission's contribution rate		4.55%		2.44%		1.38%	
Employees' contribution	\$	142,375	\$	93,376	\$	44,113	
Employees' contribution rate		3.65%		2.44%		1.24%	

Note 8 - Employee Benefit Plans (Continued)

The pension obligation was calculated on a pension system basis and cannot be disclosed on a plan basis. The Washington State Department of Retirement Services does not make separate measurements of pension benefit obligations of individual employers. Historical trend and other information regarding the plan are presented in the Washington State Department of Retirement Systems 2007 annual financial report.

The plan information for the fiscal year 2007 has been presented in the State Department of Retirement Systems 2007 annual financial report, which may be obtained at:

Washington State Department of Retirement Systems PO Box 48380 Olympia, WA 98504-8380 www.drs.wa.gov

Note 9 - Risk Management

The Commission is exposed to various risks of loss related to torts; theft of, damages to, and destruction of assets; errors and omissions; natural disasters and acts of terrorism for which the agency carries commercial insurance. As of June 30, 2007, there were no known asserted or unasserted claims or judgments against the Commission.

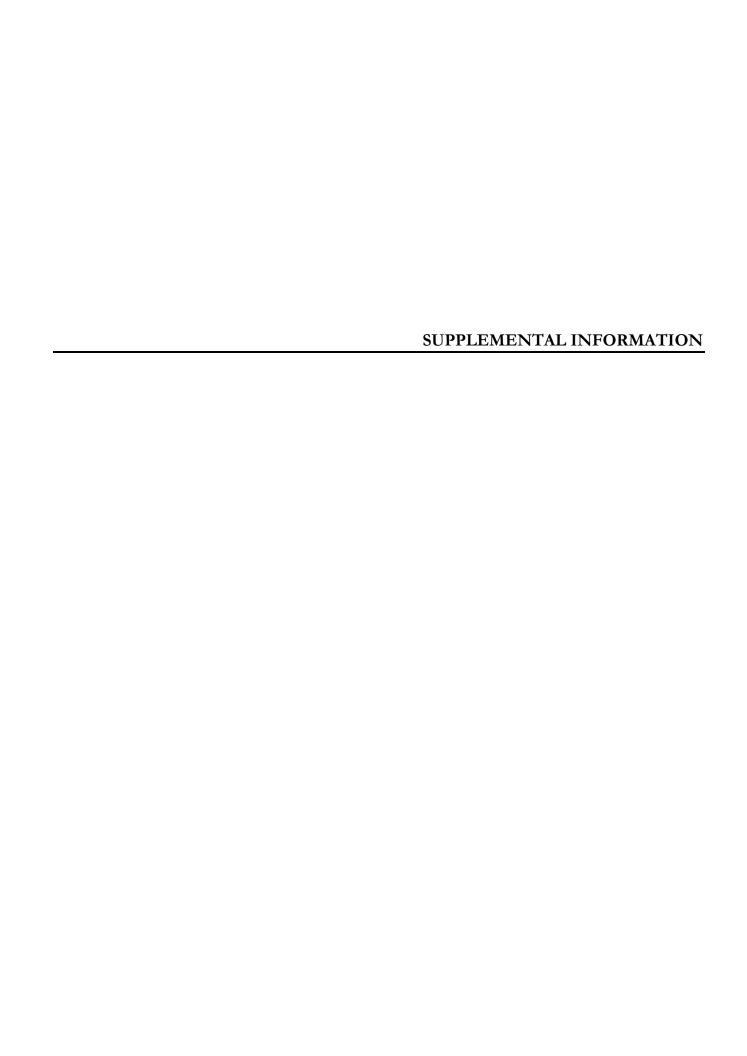

Note 10 - Related Party Transactions

The Commission provides staff and other administrative services to the following state agencies as of and for the years ended June 30, 2007 and 2006:

Charges for Services	 2007		2006	
Washington Higher Education Facilities Authority	\$ 228,141	\$	177,673	
Tobacco Settlement Authority	\$ 27,605	\$	19,442	
Receivable From (Payable To):				
Washington Higher Education Facilities Authority	\$ 144,440	\$	38,000	
Tobacco Settlement Authority	\$ 6,097	\$	8,880	

Note 11 - Subsequent Events

As of January 25, 2008, the Commission has issued approximately \$417,105,000 in additional bonds subsequent to June 30, 2007.
