

A Forum on
Housing and... Aging

How can we help seniors live healthy - and independently - for longer?

The answer requires creative solutions that cross the silos of housing, health care, and social services.

Join the **Housing Development Consortium of Seattle-King County** at a forum focused on action: innovations, pilot projects, policy changes and partnerships that integrate services with affordable senior housing.

We'll learn about initiatives from across Washington state and the country that can help us drive forward smart policies and programs for vulnerable seniors.

Opening

Mayor Ed Murray, *City of Seattle*

Keynote

Nancy Eldridge, *National Center for Healthy Housing*
