Washington State Housing Finance Commission

The Washington State Housing Finance Commission (Commission), established in 1983, is a publicly accountable, self-supporting team dedicated to increasing housing access and affordability and to expanding the availability of quality community services for the people of Washington.

At the Commission, we feel good about what we do. We stabilize families; we ensure that the elderly maintain their dignity; we finance opportunities for people with disabilities; we provide affordable housing and facilities for community and we foster economic development – all at no cost to the citizens of Washington. As a self-supporting agency, everything we do at the Commission is without taxpayer money.

The Commission provides opportunities for homeownership utilizing proceeds from the sale of Mortgage Revenue Bonds to purchase eligible below market interest rate mortgage loans, through a statewide network of participating lenders.

The Commission performs program administration tasks, including tax requirement reviews and has contracted with Idaho Housing and Finance Association (IHFA) to serve in the capacity of Master Servicer.

Introduction to Mortgage Revenue Bonds

The Commission’s first mortgage “state bond” product is called the House Key Opportunity Program (Program) and it is subject to regulation by the Internal Revenue Service Code (“the IRS Code”). Operating procedures for the House Key Opportunity program and all downpayment assistance programs can be found on our Website at <http://www.wshfc.org>.

When tax-exempt mortgage revenue bonds are used to finance below market interest rate mortgage loans, certain criteria is required to retain the bonds’ tax-exempt status, including:

- Acquisition Cost Limits
- Income Limits
- First-time homebuyer requirements
- Owner occupancy requirements

Benefits of the House Key State Bond Program

The House Key State Bond program is designed for low and moderate-income households who are first time homebuyers unless purchasing in a Targeted area. Advantages to Borrowers include:

- Program *advantages for Borrower*:
 - Qualifies for a larger mortgage.
 - Flexible underwriting criteria.
 - Manufactured homes available.
 - Upfront Mortgage Insurance program available.
- Program *advantages for Loan Originator*:
 - Builds customer loyalty.
 - Stops the rate shoppers.
 - Promotes community awareness and involvement.
- Downpayment assistance programs for downpayment and closing costs:
 - Wraps closing costs into the loan.
 - Combines with other community downpayment assistance programs.
 - Allows higher Combined Loan-to-Value.
 - Serves special populations (i.e., people with disabilities & rural).

Purpose and Scope

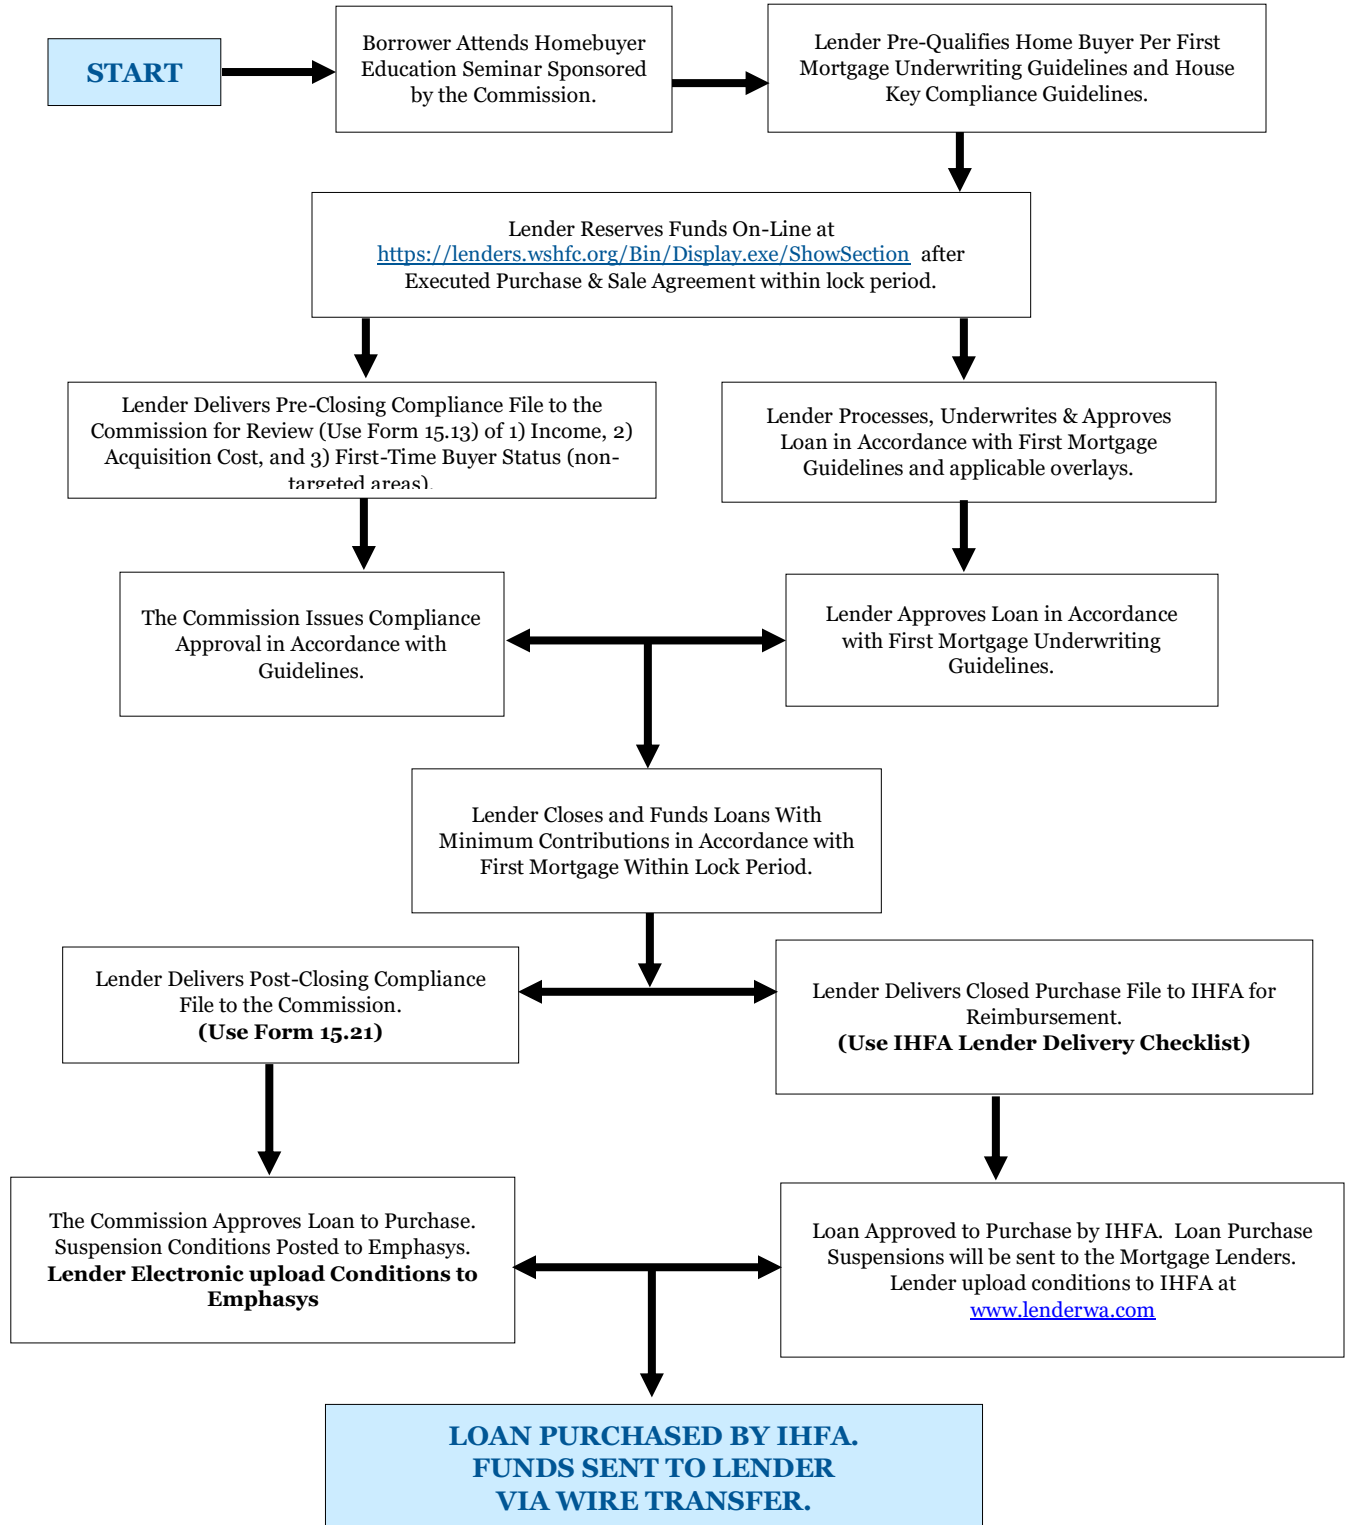

This Program Manual establishes the operating procedures for Mortgage Lenders and provides detailed instructions for the performance of the written agreements between the Commission and the Mortgage Lenders.

Process Overview

House Key Opportunity State Bond Loans are underwritten by Mortgage Lenders according to the first mortgage product guidelines. Neither the Commission nor our Master Servicer re-underwrites the loan for credit or property. The Mortgage Lender will also submit a Pre-Closing Compliance Package to the Commission for approval prior to Loan Closing.

After the loan closes, the Mortgage Lender sends the purchase file to IHFA and a Post-Closing File to the Commission for approval to purchase. Once all suspension conditions are cleared and files are complete, IHFA purchases the loans and funds are sent to the Lender via wire transfer.

House Key State Bond Loans: From Origination to Closing to Purchasing by MASTER SERVICER

Revisions of, or supplements to, this Program Manual may be made from time to time. The Commission will provide Mortgage Lenders with revised or additional pages along with instructions for insertion into this Program Manual. Information contained in the House Key Manual is subject to change. All program updates will be posted on the Commission's Website. It is the Mortgage Lender's responsibility to monitor the Website on an ongoing basis for current information.

Subordinate Financing

All subordinate financing closed in conjunction with a House Key Program Mortgage Loan must meet the underwriting guidelines of the first mortgage type. It is the Mortgage Lender's responsibility to review the Program Description, Note and Deed of Trust for community seconds compliance. The underwriter must show the name of the community second program and verify the program is an approved community second program on the 1008 or HUD 92900-LT.

Maximum CLTV is determined by the first mortgage loan type's underwriting guidelines and is subject to mortgage insurance availability as applicable.

Quality Control

The Commission and IHFA from time to time at their sole discretion may request additional documentation from Mortgage Lenders. The Commission will monitor Mortgage Lenders for timely cancellation of reservations, total production levels, length of time to close and deliver eligible Mortgage Loans, participation in Homebuyer Education, level of Borrower complaints, compliance with Program Guidelines and other factors the Commission, at its sole discretion, considers necessary to evaluate effective Program participation.

Qualified Mortgage (QM) and Ability to Repay

CFPB's final rule includes an exemption from the rule's requirements for HFA loans including an exemption from the ability-to-repay. HFA loans will not have to comply with the three-percent cap on upfront points and fees, nor will the degree of legal protection an HFA loan receive vary by its APR.

Repeat Program Users

Borrowers who have previously benefitted from Commission programs:

If the Borrower wishes to use Commission programs (Home Advantage, MCC, or House Key Opportunity) and has an outstanding Home Advantage or House Key Opportunity loan, the Borrower must pay off the first and second mortgage in full prior to using another Commission program loan.

If the Borrower has an outstanding MCC and wishes to use Home Advantage or House Key Opportunity, the Borrower is no longer eligible for the MCC credit and must sign a notarized affidavit stating the Borrower understands that the Borrower is no longer eligible for the MCC credit and agrees to no longer claim the MCC credit.

If a Borrower's current or prior home was financed through a Commission program loan and is/was subject to a short sale, foreclosure, bankruptcy or deed in lieu, and the Commission suffered or expects to suffer a loss, the Borrower is not eligible to obtain another Home Advantage, House Key Opportunity or MCC Commission program loan until the down payment assistance obligation and any unpaid amount, regardless of whether such amount was discharged, is repaid to the Commission, and all other program requirements have been met.

In order to be named on the Note and/or Deed of Trust, a person must meet the guidelines established by the loan type originated under the Program.

Documentation Required. The Commission requires the same documentation used to meet the guidelines established by the loan type originated under the Program.

Eligible borrowers are either U.S Citizens or Non-U.S. Citizens as follows:

- **U.S. Citizen:**

The borrower must have a valid social security number and be a citizen of the United States or of a U.S. Possession or Territory. Borrower(s) photo identification documents must also be provided to review and ensure identity and compliance with the US Patriot Act.

- **Non-U.S. Citizen:**

Non-U.S. Citizens must be lawfully present in the United States (or otherwise meet the requirements shown below under deferred action). The term “lawfully present” includes those who have “qualified alien” status. A “qualified alien” is defined as an alien who, at the time the alien applies for, receives, or attempts to receive a Federal public benefit, per section 101(a) of the Immigration and Nationality Act {8 U.S.C. 1101 (a)}. The classifications of Non-United States Citizens are described below:

- *Permanent Resident Qualified Alien:* An alien who is lawfully admitted for permanent residence under the Immigration and Nationality Act, also known as a “permanent resident.” Document legal residency and eligibility to work in the United States with one of the following:
 - A valid and current Permanent Resident Card (form I-551); **or**
 - A passport stamped “processed for I-551,” “temporary evidence of lawful admission for permanent residence,” “valid through _____,” and “employment authorized.” Passport must be valid and not expired. This evidences that the holder has been approved for, but not issued, a Permanent Resident card (form I-551).

OR

- *Non-Permanent Resident Qualified Alien:*
 - An alien who is granted asylum under section 208 of the Immigration and Nationality Act. Document legal residency and eligibility to work in the United States with the following:
 - A valid I-94 with class of Admission as 208 and stamped as “asylum granted” (or a signed, stamped court decision indicating the immigration judge has granted the asylum if the stamp on the I-94 has not yet occurred); **and**
 - A current, valid Employment Authorization Document (EAD) with a category code A05 or a valid social security card.
 - A refugee who is admitted to the United States under section 207 of the Immigration and Nationality Act. Document legal residency and eligibility to work in the United States with the following:
 - A valid I-94 with Class of Admission as 207 and a refugee admission stamp; **and**
 - A current, valid EAD with category code A03.
 - An alien who is granted conditional entry pursuant to section 203 of the Immigration and Nationality Act. Document legal residency and eligibility to work in the United States with the following:
 - A current, valid family based, employment based or diversity visa (as defined in Lawful Non-Permanent Qualified Resident chart); **and**
 - For family based visa borrowers or spouses/children of employer sponsored visa borrowers (as defined in Lawful Non-Permanent Qualified Resident chart), a current, valid EAD.
 - An alien who is a Cuban and Haitian entrant (as defined in section 501(e) of the Refugee Education Assistance Act of 1980). These individuals are paroled into the United States. Document legal residency and eligibility to work in the United States with the following:
 - I-94 with stamp showing Cuban/Haitian entrant (Status Pending); **and**
 - A current, valid EAD A04 or C11.
 - An alien who has been battered or subjected to extreme cruelty under section 431 of the Immigration and Nationality Act. Document legal residency and eligibility to work in the United States with the following:
 - A current, valid U1-4 or T1-4 visa; **and**
 - A current, valid EAD.

- An alien who entered the United States unlawfully as a child but has since been granted “deferred action” (AKA DACA) which defers removal action against the individual for a period of time. This status is permitted only in [FHA](#), VA and [Fannie Mae](#) programs, per agency guidelines. Document legal residency and eligibility to work in the United States with the following:
 - A current, completed I-797 form showing approval DACA status; **and**
 - A current, valid EAD card with code C33.

Lender is responsible to document legal residency and eligibility to work in the United States with the required documentation in post package file to appropriate loan servicer, per investor guidelines. If documentation is not acceptable loan may be subject to repurchase by the lender. You may find the Residency and Eligibility guide [here](#). If the authorization documentation (visa, I-94, I-551, passport or EAD, as applicable), will expire within one year from the loan closing date and a prior of renewals exist, continuation may be assumed.

“Pending” status for asylum or refugee are not permitted.

DACA status borrowers are not eligible for USDA and Freddie Mac HFA Advantage loans.

Occupancy Requirement

All Borrowers must occupy the Single-Family Residence as their personal principal residence within 60 days from the date the Mortgage Loan is closed. At no time can the Single-Family Residence be used as an investment property, vacation or recreational home.

Documentation Required. At loan application, the Borrower(s) signs and the Mortgage Lender has notarized the Addendum to Residential Loan Application whereby the Borrower(s) attests that the Single-Family Residence intended to be purchased will be used as a personal principal residence.

First-Time Homebuyer Requirement

The Borrower(s) must be a First-Time Homebuyer unless the Single-Family Residence is located within a Targeted Area or the Borrower is a Veteran. A First-Time Homebuyer is defined as someone who has not owned and occupied a primary residence at any time in the three years preceding the closing of the Mortgage Loan. Please see [Appendix IV](#) for further information on the Veterans Exception.

A Borrower may qualify if they owned other property such as vacation property, a recreational vehicle, a mobile home (not affixed to real property and for which they paid no property tax or claimed a mortgage interest deduction), or if they inherited property in which they did not reside.

Documentation Required. The primary form of documentation is the federal income tax returns for the last three years submitted by the Borrower at loan application. The Mortgage

Lender must examine the returns to determine that no mortgage interest or real estate tax deductions were taken.

Definition of Household Size

Household size includes all persons who will permanently reside in the Single-Family Residence.

Household size does not include:

- dependents that are claimed on tax returns, but will not permanently reside in the home.

Household size does include:

- non-borrowing co-habitants that will reside in the Single-Family Residence (income must also be included in Annualized Gross Household Income for persons 18 years of age or older);
- persons who are full-time household occupants regardless of age;
- children expected to be born to a pregnant woman;
- children in joint custody arrangements who are present in the household 50% or more of the time;
- children who are away at school and who live at home during recesses.

Calculation of Income

The income calculation described below for the purpose of determining Program loan eligibility for federal tax purposes is an entirely different process than the one used for credit underwriting.

The income used for Program purposes is the anticipated (future) income for the 12 months following Mortgage Loan closing. The income used to qualify the Borrower(s) for credit underwriting may not exceed the income used to qualify for Program compliance. (Exception: foster care payments may be used for credit underwriting even though they are excluded for Program loan eligibility. See also “Examples of Income to Include or Not to Include” in this Section.).

The household income of a Borrower is referred to as the Borrower's "annualized gross (before any taxes or deductions) household income." Annualized Gross Household Income is defined as the Borrower's gross monthly household income multiplied by 12. Gross monthly household income is the sum of: monthly gross pay; any additional income from overtime, part-time employment, bonuses, dividend, interest, royalties, pensions, IRAs, 401(k) plans, Veterans Administration (VA) compensation, net rental income, etc.; and other income (such as alimony, child support, public assistance, sick pay, social security benefits, unemployment compensation, income received from trusts, and income received from business activities or investments.)

Income from all sources must be verified and included when calculating an applicant's gross monthly household income. The income of all residents 18 years or older (related and unrelated) must be included in the calculation of Annualized Gross Household Income and may not exceed the Program limits established by the Commission at the time of loan closing. These limits are located under the heading "Maximum Total Annual Income" in this section of the Program Manual.

To determine Annual Gross Household Income for full-time employment, multiply

- hourly wages by 2080
- weekly wages by 52
- bi-weekly wages by 26
- semi-monthly wages by 24
- monthly wages by 12

To determine Annual Gross Household Income for less than full-time employment, multiply:

- hourly wages by the number of hours the person is expected to work per week x 52.

If a range of hours is given, you must use the highest number of hours. If this puts the household over income, you may need to contact the employer and clarify.

If the hours are irregular, average the number of regular hours at current regular pay rate and average the overtime hours times current overtime rate.

Current Period

Lenders must determine the household earnings for the "current period." The "current period" begins with the pay period prior to the date of loan application and ends at loan approval.

Documentation of Income

Edited 07/18/2019

In order to accurately determine "current period" income, all income earners in the household 18 years of age or over must provide paycheck stubs or other earnings statement for each source of income for each household resident 18 years of age or over preferably within the 30 day period prior loan closing.

The purpose of these earnings statements is to accurately delineate the current household earnings for a minimum of one pay period.

A full written Verification of Employment for the Borrower(s) and all income earners (regardless if on Note and Deed of Trust) in the household 18 years of age or over from current employer(s)

is also required to verify pay raises, bonuses, overtime, and hours worked per week. Paycheck stubs do not always provide this breakdown of information.

Mortgage Lenders must include a copy of the calculation if income is from a source other than a monthly salary.

Maximum Total Annual Income

Edited 07/02/2021

To be eligible for a Program loan, an applicant's Annualized Gross Household Income must not exceed the following Program income limits at the time of loan closing:

COUNTY	NON-TARGETED		TARGETED	
	<i>1-2 persons</i>	<i>3 or more persons</i>	<i>1-2 persons</i>	<i>3 or more persons</i>
Clark / Skamania	\$95,000	\$110,000	\$105,000	\$120,000
Pierce	100,000	\$120,000	\$100,000	\$120,000
Kitsap	\$90,000	\$100,000	\$105,000	\$120,000
King/Snohomish	\$130,000	\$155,000	\$130,000	\$155,000
All Other Counties	\$85,000	\$100,000	\$95,000	\$110,000

Examples of Income to Include or Not to Include

The following guidelines are provided as a general computational aid and may not apply to all situations. Please call the Commission for assistance whenever in doubt as to the correct way to calculate income.

1. **Overtime:** Income earned from overtime will be included if the Borrower has a history of such income or if the income was earned during the "current period." The Mortgage Lender must not include more overtime income in qualifying the Borrower for the Mortgage Loan than is used in determining income for Program compliance.

To calculate overtime for compliance purposes, first consider the amount earned during the "current period" and annualize it. If the Borrower claims that the overtime earned in the "current period" is excessive or unusual, the Mortgage Lender may average the number of hours of overtime worked during the previous two years. Multiply the

average monthly hours by the current rate of overtime pay and use that figure for overtime earnings.

2. **Bonus:** The gross amount of a recurring bonus before any payroll deductions is to be included in the income calculation when the following applies:
 - a) The bonus is part of a collective bargaining agreement and must be paid; or
 - b) The bonus is included in the computation of income by the employer; or
 - c) There is a history of bonuses.

If the information is available, the amount of the bonus income to be included for compliance is the bonus paid or payable for the calendar year in which the loan is closed.

If there is a history of bonuses but the applicant does not know if a bonus is planned, nor does the employer divulge its plans for a bonus nor the projected bonus amount, the Mortgage Lender is to use an average of past years' bonuses to calculate income. A bonus history for tax compliance purposes is to be considered one year or more.

3. **Commissions:** Income derived from commissions should be based on the "current period" unless evidence is provided which justifies averaging the commissions. Under normal conditions, an individual who earns income based on commissions expects that his income will increase over time.
4. **Military Pay:** Include all regular pay, special pay, and allowances of a member of the military (whether or not living in the Single-Family Residence). Do not include special pay to a family member serving in the Armed Forces who is exposed to hostile fire.
5. **Self-employment:** The procedure for calculating Annual Gross Household Income for self-employed applicants is the same as under FHA, VA or Fannie Mae underwriting guidelines. As in standard underwriting, depreciation and depletion are to be added back to determine annual income. Tax returns, a current financial statement, and a self-employed cash flow analysis are required for all self-employment applicants. Two years signed corporate or partnership tax returns are required in addition to personal returns. In the case of negative income, self employment income is reflected as \$0.00.

Many applicants who are employed by others are also self-employed. These applicants derive their primary income from wages but also generate additional income from side jobs or consulting. Mortgage Lenders should watch for all types of self-employment (i.e., 1099 income received from an employer run through Schedule C, Form 2106, etc.)

6. **Child Support:** If a divorce decree states that child support is due to the applicant, then child support must be added to the Annual Gross Household Income for compliance purposes. Child support documentation is required. The only exception to this rule is if the child support is scheduled to come to the applicant through the courts or Department of Social and Health Services, and that agency provides written verification that the funds have not been received for six months or more.

7. **Alimony:** Alimony or separate maintenance payments received by the applicant must be taken into account in calculating income.
8. **Periodic Payments** – Payments received from social security, annuities, insurance policies, retirement funds, pensions, disabilities, or death benefits, and other similar types of periodic receipts, including a lump-sum amount or prospective monthly amounts for delayed start of a periodic amount are included as income, except for deferred periodic amounts from supplemental security income and social security benefits that are received in lump-sum amounts or in prospective monthly amounts. These amounts are not grossed up for compliance purposes.
9. **Adoption Assistance Payments:** Adoption assistance payments in excess of \$480 annually per adopted child are excluded from gross monthly household income.
10. **Foster Care Payments:** Payments received for the care of foster children are excluded from gross monthly household income. (See also “Foster Care in Home” in Section 4, Property Requirements.)
11. **Full-Time Student, 18 Years or Older:** Exclude earnings in excess of \$480 annually for each full-time student 18 years or older from gross monthly household income unless that person is the head of household, spouse or co-head.
12. **Rental Property or Contract Income:** Net rental income is to be included. The use of standard underwriting criteria and procedures to document this income is acceptable. Depreciation should be added back to the net rental income where applicable. The standard vacancy factor for FHA, VA or Conventional loans is acceptable when calculating net rental income.

Contract income must be included. If there is an underlying mortgage, the Mortgage Lender may use the net amount in calculating Annualized Gross Household Income.
13. **Gambling Winnings:** Money from gambling is considered to be income. One time gambling winnings should not be included as income and should be included when determining income from assets (See Income from Assets)
14. **Education Grants:** All forms of student financial assistance (grants, scholarships, educational entitlements, work study programs, and financial aid packages) are excluded from annual income. This is true whether the assistance is paid to the student or directly to the educational institution.
15. **Car Allowance:** Income received from employers for car allowance must be included in Annualized Gross Household Income if the applicant has no accounting responsibility to the company.

16. **Moving Expenses:** Moving expenses paid by the employer will not be considered as income if documented by the employer as reimbursement only. Do not deduct from income, any moving or relocation expenses not paid by the employer.
17. **Capital Gains/Losses:** Both the taxable and non-taxable portions of capital gains are to be included as income if a history of this income exists. If the two year average results in a gain, then it must be added to gross monthly household income, and losses are to be disregarded. Losses cannot be used to reduce gross monthly household income.
18. **401(k):** The funds that the applicant contributes to a 401(k) savings plan are not taxable earnings and as such are not usually reflected in year-to-date earnings on pay stubs.

These savings plans are voluntary and are actually a part of the applicant's earnings. When the Mortgage Lender calculates earnings the savings contribution must be added to the year-to-date figures.
19. **Lump Sum Payments:** Lump sum payments, including but not limited to, inheritances, re-enlistment bonuses, lottery winnings paid in one payment, and disbursements from insurance policies do not have to be included in Annualized Gross Household Income. Lump Sum payments should be included when determining income from assets (See Income from Assets). If the income is received in any other form other than lump sum (i.e., monthly, quarterly, or annually) it must be treated as permanent income and added to the Annualized Gross Household Income.
20. **Inheritance and Trust Income:** Income received from inheritances and trust funds will be regarded in the same way as all other income. If the distribution is made from an inheritance or trust fund in a lump sum, it will not be considered as part of Annualized Gross Household Income. If the distribution is other than a lump sum (annual, quarterly, or monthly), it will be added as part of Annualized Gross Household Income.
21. **Income from Assets:** Interest, dividend and royalty earnings are considered income. The cash value of all assets (including 401(k)'s, pension, retirement, CD's, annuities, stock, etc.) must be verified and listed on the Loan Application. The cash value is the total value less any penalties and fees for early withdrawal. Retirement accounts are included as assets only if the money is accessible, even though a penalty may be assessed. Do not include a retirement account if the funds are accessible only upon retirement.

If it is estimated that the applicant will have \$5,000 or more in the cash value of their assets at closing, after downpayment and closing costs, calculate the earnings at an interest rate based on HUD's passbook rate at the time the application is taken. Use the higher of this calculation or the actual income earned.
22. **Withdrawal of Cash or Assets:** Withdrawal of cash or assets from an investment (i.e. pensions and stocks) received as periodic payments should be counted as income unless the applicant can document that the amounts withdrawn are reimbursement of

amounts originally invested. However, annuity or interest payments from an investment are considered income (See Income from Assets.)

Borrower/Co-Borrower

For purposes of this Program, any person who signs the Mortgage Note, Deed of Trust and/or takes title to the Single-Family Residence is considered a "Borrower/Co-Borrower".

Co-Signer/Guarantor

The Commission defines a co-signer as a person who signs the Note, may or may not take title to the property, and is only responsible for payments if the primary Borrower does not make the payments. The Commission will not accept non-occupant co-signer(s) or non-occupant co-borrower(s).

Married Individual Taking Title in Separate Estate

The spouse of a Borrower does not have to take title to the property. However, the spouse's income must be included on all Program documents and the spouse's tax returns for the past three years, paystubs and full written VOE must be included with the pre-closing compliance package regardless of occupancy.

If the Borrower is legally separated, the Mortgage Lender does not include the spouse's income and does not need their tax returns.

4 - PROPERTY REQUIREMENTS

Edited 10/10/2019

In General

Only one-unit Single-Family Residences located in the state of Washington may be financed under the Program.

Qualifying Single-Family Residences

Edited 6/9/2020

One-unit single-family detached, attached, condos, PUD's and manufactured homes that do not violate the conditions in the Non-Qualifying Residences guidelines below and are acceptable to FHA, VA, Rural Development requirements, Freddie Mac and Fannie Mae and the approved Fannie Mae or Freddie Mac PMI provider, as applicable, are acceptable under the Program. Accessory Dwelling Units are accepted if not used for rental purposes with documentation in the file and if they are appraised as a 1 unit property.

For FHA: Single-unit condominium project approval is acceptable under the program, follow agency guidelines.

Homes in Community Land Trusts (CLTs) are not eligible under the Freddie Mac HFA Advantage program.

Non-Qualifying Residences

Properties are not considered Single-Family Residences if they:

- Have an Accessory Dwelling Unit which is going to be used as a rental.
- Have excess land value. Qualifying land is the lesser of that necessary for basic livability or two acres.

Non-qualifying properties include duplexes, triplexes, recreational, seasonal or other types of vacation or non-permanent homes.

Manufactured Homes

The home must meet all underwriting guidelines established by FHA, VA, USDA, or Fannie Mae HFA Preferred Conventional. No borrower contribution required. Manufactured homes are not eligible with Freddie Mac HFA Advantage conventional program.

Eligible Land

The land on which the Single-Family Residence is located must be the lesser of the size required to maintain basic livability or two (2) acres. Local zoning requiring more than two acres supercedes the federal two-acre requirement. Homeowner Association requirements do not supercede the federal two-acre requirement.

Acquisition Costs

Edited 11/16/2020

Sales price and Acquisition Costs may be different. Acquisition Cost includes the total purchase price of the home plus any additional expenses assumed by the Borrower or others (i.e. Mortgage Lender, Realtor, etc.) which are not typical borrower costs or fees. Fees, or repairs paid for by the seller are not included in the Acquisition Cost. If any repairs are to be paid for by the Borrower or others (i.e. Mortgage Lender, Realtor, etc.) prior to closing or included in the settlement cost, those costs must be included in the Acquisition Cost. Items of personal property sold by the seller to the Borrower at a cost which is higher than the market value are included in the Acquisition Cost.

Example: The buyer and seller agree to a purchase price on the contract. They also agree that the buyer will pay other fees normally charged to the seller (i.e., Realtor commission or property excise tax) or that the buyer will pay for a new roof or other repairs (whether required by the Mortgage Lender or not). In this example, the Acquisition Cost is the sum of the purchase price plus the additional costs assumed by the buyer basically for the benefit of the seller. The total cost of the commission or excise tax, and/or the roof is added to the purchase price to equal the Acquisition Cost.

The total Acquisition Cost of the Single-Family Residence will be verified using the Purchase & Sale Agreement, including all addendums, Appraisal and the Final Closing Disclosure.

The total Acquisition Cost may not exceed the Program maximums for the county in which the property is located. (See the end of this Section for the maximum income limits by county.)

New Construction

The total cost of construction must be included in the Acquisition Cost as documented by the Purchase & Sale Agreement, including all addendum, construction contracts/breakdown, appraisal and Final Closing Disclosure. The total Acquisition Cost must not exceed the Acquisition Cost limit in effect at loan closing.

If the site has been owned by the Borrower(s) for at least two (2) years before the date on which construction of the Single-Family Residence begins, the site cost may be excluded from the Acquisition Cost. If the Borrower(s) own the land, the land may be used as down payment for construction, but should remain in the name of the Borrower(s).

Business Use of Home Restrictions

No more than 15% of the square footage of the home being purchased may be used in connection with a trade or business. With regard to all types of child care services, the Commission's guidelines dictate that the Borrower does not qualify if any one of the following criteria apply:

1. Income from child care is greater than 10% of the Borrower's Annualized Gross Household Income;
2. Child care is provided for more than one additional child outside of the provider's own children; or
3. The Borrower(s) is a licensed child care provider.

Foster Care in Home

House Key Mortgage Loan applicants who provide foster care to children in their home and neither include foster care payments in their income nor take deductions for foster care costs under current tax laws are eligible for a House Key Mortgage Loan. Applicants who meet this definition must sign an Affidavit Regarding Foster Care Payments (15.6.3) as an acknowledgment of these requirements. Eligibility is determined by the signing of this affidavit.

Applicants who provide foster care services and receive payments that must be included in their income and/or take deductions for foster care costs under current tax laws may not be eligible for a House Key Mortgage Loan. Please call the Commission to discuss potential eligibility for the program on a case by case basis (See also Section 18, Appendix I).

Appraisals

Appraisals must be in compliance with FHA, VA, Fannie Mae, Freddie Mac or USDA Rural Development guidelines. Appraisals must have interior and exterior inspections.

If the appraised value is less than the purchase price of the property, the Borrower(s) must provide written acknowledgment they have received a copy of the appraisal and are aware they are paying more than the current established value of the home. If the purchase price exceeds the appraised value by more than \$1,000, the Commission may require additional information (i.e., narrative from the underwriter noting the differential, that the negative impact to the Borrower has been appropriately addressed and that the transaction makes sense for the Borrower(s)).

Property/Home Inspections

All properties must have an home inspection unless a 1 year home warranty is provided by the builder. The property must have a property inspection within the most recent 6 months.

The purpose of the inspection is to inform the Borrower of the existing condition of the property so they may properly budget for future possible upgrades and/or replacement of noted deficiencies.

The inspection must be completed by a licensed Washington State Home Inspector. Pest and appraiser inspections cannot be used in lieu of property inspections.

Inspections must cover the entire home and any attached or detached structures on the property which are given value by the appraiser. The full written inspection must itemize all areas inspected and the results of the review.

A paid receipt of the inspection or similar documentation referencing the property address, borrower(s) name and date of the inspection must be in the loan Pre-Closing Compliance file. A copy of the inspection for the file is not necessary. In addition, any inspection required by the appraiser must be included in the loan file.

Verbal inspections are not acceptable under the program.

Maximum Acquisition Cost

Edited 07/02/2021

The maximum Acquisition Cost for a Single-Family Residence must not exceed the following amounts: **Please note**, loan amounts of \$548,250, and up to \$776,250 in high cost areas (King, Pierce and Snohomish counties) permitted. For Freddie Mac HFA Advantage maximum loan amount is \$548,250.

A Qualified Census Tract is an area which at least 70% of the population of Washington makes 80% of the areas' median or an area of "chronic economic distress" as designated and approved in accordance with the Internal Revenue Code of 1986. The Code requires that the Commission make a portion of the funds available to finance Single-Family Residences in the Targeted Areas for a period of at least one year. 5 - RECAPTURE TAX

Edited 03/01/2018

Background

The Internal Revenue Code of 1986 established the recapture tax requirement for all loans closed after January 1991. The recapture tax requires certain borrowers to repay the government a portion of their gain upon the sale of the home if they financed their home with a mortgage loan from the proceeds of a tax-exempt bond.

Application of Tax

The recapture tax is assessed only under the following circumstances:

- The home is sold or otherwise disposed of during the first nine years of ownership;
- The Borrower's income increases each year by 5 percent above the maximum federal income limit at the time of purchase; and
- The Borrower realizes a gain upon the sale of the home.

Because all of these events must occur for any tax to be paid, it is unlikely that most Borrowers will pay a recapture tax.

In the event that a recapture tax is due, it will be only a portion of the Borrower's gain on the sale of the home. The law states that the maximum recapture tax is either 50% of the gain on the sale or 6.25% of the original loan amount, whichever is less.

Refinancing

If the Borrower refinances their loan which is subject to recapture tax, the refinancing does not trigger the calculation of recapture tax because the property has not been disposed of or sold.

Borrower's Responsibility

All Borrowers will need to complete IRS Form 8828, Recapture of Federal Mortgage Subsidy, when they file their federal income taxes for the year in which the home is sold or disposed of. This form calculates any recapture tax that may be due. Borrowers having specific questions regarding the correct completion of this form should contact the IRS for assistance.

Lender's Responsibility

At loan application, it is the Mortgage Lender's responsibility to make the applicant aware of the federally-imposed recapture tax by presenting to the applicant for signature the Notice to Buyers (Form 15.7). This form is included in the Forms section of this Program Manual. A copy of this form is provided to the applicant and the original form is submitted with the Pre-Closing Compliance Review file.

A sample worksheet entitled Notice to Mortgagor of Information Regarding Potential Federal Subsidy Recapture Tax (Form 15.10) should be attached to the applicant's copy of the Notice to Buyers form. This worksheet shows an example of how to calculate the recapture tax based on the total amount of federal subsidy the Borrower receives.

At loan closing, the Mortgage Lender must have the Borrower(s) sign the Notice of Potential Recapture Tax on Sale of Your Home (Form 15.14). This form, included in the Forms section of this Program Manual, once duly executed is submitted with the Post Closing Compliance Review loan file and a copy is provided to the Borrower.

If the Mortgage Lender does not sell the Mortgage Loan to the Commission, the Borrower must be notified that the recapture tax provisions no longer apply. A Notice of Cancellation of Recapture Tax form (Form 15.29) is provided in the Forms section of this Program Manual. This form must be provided to the Borrower on the Mortgage Lender's letterhead if the Mortgage Loan is not purchased by the Commission.

Commission's Responsibility

Within 90 days after loan closing the Commission will provide a notice to the Borrower detailing the recapture tax calculation.

HOMEBUYER EDUCATION

Edited 03/10/2020

Note: Due to Covid-19, currently all seminars are being held virtually only.

Policy

All Borrowers listed on the Note and Deed of Trust need to complete a Homebuyer Education Seminar registered through the Commission that meets the standards stated in this section. Potential homebuyers must each have their own individual Completion Certificate before reservation of funds for Commission Programs. If a reservation of funds is made before the borrower(s) take a Commission sponsored homebuyer education course, the current reservation will be considered invalid and will be subject to worse case pricing. No Exceptions.

Completion Certificates remain valid for two years and if lost can be re-issued so long as the Commission's database of seminar participants confirms attendance. Instructors will be limited to teaching no more than 2 classes per week and no more than 1 class per day. Both instructors are required to stay for the entire class time.

Seminar Instructors

All seminar instructors must complete the Commission's Program and Homebuyer Education Instructor training. Additionally, it is recommended that seminar instructors have a minimum of two years residential mortgage lending experience. All seminars must be co-instructed by a lending professional and a real estate professional who have attended the Commission's Program and Homebuyer Education Instructor training. Two exceptions exist:

- In outlying areas where there are no real estate professionals, real estate professionals who have not attended Commission's Program training may be invited as guest speakers only. Advanced approval by the Commission is required.
- Nonprofit 501(c) 3 organizations conducting seminars are highly encouraged to include Commission trained real estate professionals, but are not required to include them.

To remain eligible to teach our seminars, real estate professionals and nonprofit 501(c) 3 organizations need to annually co-instruct with a Commission trained lender at least one Commission sponsored seminar. Mortgage loan originators need to annually close and have purchased by the Commission a minimum of one Commission Program loan (excluding MCC).

Instructors Who No Longer Work for a Participating Lender

Previously Commission trained lending instructors who move to Non-Participating Commission Programs lending institutions may temporarily continue to teach homebuyer education until their new company is approved as a participating lender. If new lending institution is not eligible to participate, you cannot teach our seminars. The instructor must receive permission from the Commission in advance and must teach with a Commission trained real estate professional or nonprofit. The Commission will not be able to publicize these seminars on our Website.

Seminar Format

The Commission requires all seminars offered contain the following elements:

- free of charge
- open to the public.
- a total minimum seminar time of five hours of actual class time, plus breaks

Commission Provided Materials

The Commission's Participant Registration Forms, brochures, evaluation forms, and Completion Certificates are required for use in all registered seminars. These documents are provided by the Commission. When the instructor's registered seminar is approved, the Certificate, participant registration and evaluation forms will be emailed to the instructors shortly after receiving class approval. The instructors are responsible for providing the required participant registration and evaluation forms and certificate to each attendee. The certificate must be signed by all instructors.

The instructors are responsible for having all required forms from the Commission in advance of the seminar.

Additional handouts on a variety of homebuying topics as well as the Commission's programs are available upon request or on the Web site.

Seminar Arrangements

Edited 11/5/2020

Please see our [instructor information page](#) with links to registration form. Please register each seminar online at the Commission website at least **six** weeks in advance. It is the instructor's responsibility to register and have their seminar approved by the Commission in advance. The Commission cannot retroactively sponsor a class, no exceptions. It is the instructor's responsibility to check the Commission's Website approximately one week after registration to make sure all information is correct.

When a seminar's date or location change, please cancel the first seminar and submit a new online registration with the new information using the links under "Homebuyer Education Seminar Set-Up for Instructors." A new class number will be assigned to the new registration. If the class has a time change or an instructor change, please submit a registration using the **UPDATE** button.

At the seminar, please make sure all participants **complete** all questions on the Participant Registration Form. If the seminar is an in-person seminar, please make sure all participants write legibly with a ballpoint pen prior to issuing a completion certificate. Blue or black ballpoint ink is recommended. Be sure the class control number and seminar date are correct.

At the end of the seminar, ask participants to complete the evaluation form. Return the routing slip, completed evaluation forms and Participant Registration Forms to the Commission via regular mail or via email to semsetup@wshfc.org.

Seminar participants are **not** to be contacted after the seminar unless you have written permission from the participant to do so. Instructors should not be interfering with any existing working relationships.

Issue a separate, signed and completed Completion Certificate to each individual participant who completes the Participant Registration Form and finishes the 5 hours of classroom instruction. Discard leftover Completion Certificates and evaluations. Seminar instructors should inform participants of their need to provide a copy of their Completion Certificate to their loan officer for Home Advantage or other Community Homebuyer type loans.

For additional help, please see the [Seminar checklist](#) at the end of this section when setting up a homebuyer education seminar.

Publicity

The Commission maintains a Homebuyer Education Seminar Schedule and makes it available to the general public. All seminars are posted to the seminar schedule on our Web site within 60 days of the seminar unless special circumstances exist and are pre-approved by the Commission.

Instructors are encouraged to also publicize seminars on their own. **Usage of the Commission’s logo is prohibited.** A homebuyer education icon and mandatory disclaimer have been developed for use by instructors. Please contact the Homeownership Manager for further information on name and icon usage. Any advertising using our name and showing the language “seminar sponsored by the Washington State Housing Finance Commission,” must be approved by the Homeownership Manager prior to use.

Online Homebuyer Education Policy

Edited 09/01/2021

The homebuyer is highly encouraged to take a free virtual seminar as listed on our Website. If the homebuyer is unable to take a virtual class, they can also take the online self-study course offered on the Commission’s website. The loan officer will direct their homebuyer to our website at www.ehomeamerica.org/wshfc. Each homebuyer will log into the course individually by creating their own username and password. Upon successful completion of the course, each homebuyer can print out a Certificate of Completion. The cost is \$50.00 per person and the course will take approximately 6-8 hours to complete. The loan officer will enter the certificate number (s) into the reservation system. This course linked to our website is an online course accepted by the Commission.

On-line eHomeAmerica Certificate of Completion issued by HomeSight, Community Frameworks, NeighborWorks of Grays Harbor County or Homestead Community Land Trust are acceptable by the Commission, provided each borrower has their own separate certificate with a separate certificate number. These on-line courses may be at a higher cost and additional requirements may be needed. The Commission does not accept any other certificates including those from mortgage insurance companies, Framework and CreditSmart. There are no exceptions to this policy.

Disciplinary Action

All Instructors have signed and agreed to the Commission’s “Standards of Performance” at training. Instructors not following our “Standards of Performance,” ethical standards, policies, and format will not be eligible to teach Commission sponsored homebuyer education seminars. At the Commission’s sole discretion, we reserve the right at any time to permanently discontinue sponsorship of a particular instructor’s seminar or to deny an instructor access to Commission training programs based on their lack of adherence to our guidelines.

7 - RESERVATION PROCESS

Edited 09/12/2018

In General

House Key Opportunity Program funds may be reserved pursuant to a first-come, first-served reservation system funded from a statewide pool of funds. Funds may be reserved once an individual has a fully executed (signed by both buyer and seller) Purchase and Sale Agreement, has demonstrated completion of a Commission sponsored Homebuyer Education seminar, has completed a loan application with a Commission trained Mortgage Lender, and appears to meet Program compliance.

Making a Reservation

The Mortgage Lender can reserve funds using the On-line Reservation System described in the following pages of this section. Rate locks on a reservation may be made from 9:00 am – 4:00 pm Prevailing Pacific Time Monday through Friday excluding holidays.

The loan originator reserving funds must match the name of the loan originator on the borrower(s) loan application.

Length of a Reservation

The length of the reservation will be announced with each program announcement. If the complete Post Compliance Review Package is not received and approved by the Commission on or before the expiration date, the reservation is automatically cancelled.

Extensions to Reservations

Edited 2/19/2021

An extension (either 7, 15, 22, 30, 45 or 60 days) to a reservation must be made electronically in writing by 4:00 pm, prevailing Pacific Time, **prior** to the expiration of the lock and sent to lockdesk@wshfc.org for approval using the Rate Lock Extension Form provided on our Website at <http://www.wshfc.org/sf/HAforms.html>. Extension fees are netted out at loan purchase.

Extensions will **not** be accepted via telephone, fax, or through an email to an individual employee of the Commission. An extension will require approval by the Commission and will be subject to market conditions. A fee of .09375% of the loan amount will be applied to 7 day extensions. A fee of .18750% of the loan amount will be applied to 15 day extensions. A fee of .28125% of the loan amount will be applied to 22 day extensions. A fee of .37500% of the loan amount will be applied to 30 day extensions. A fee of .56250% of the loan amount will be applied to 45 day extensions. A fee of .7500% of the loan amount will be applied to 60 day extensions. Fees may be higher depending on market conditions. An acknowledgement of the received email and approval will be sent back to the Lender on the same business day for all extensions made prior to 4:00 pm PT and a condition with the appropriate fees will be posted to the reservation system.

If the Lender fails to extend the lock prior to expiration of the reservation, the Commission will automatically extend the lock and fees netted out at time of loan purchase. The Commission is not obligated to purchase the loan if the lender fails to extend the lock prior to expiration of the reservation.

Changes to a Reservation

Edited 11/16/2020

Changes to a loan reservation can be made by completing and submitting the “Reservation Change Request” form found on our website to lockdesk@wshfc.org.

Changes can be made for the following reasons:

1. Increasing or decreasing the loan amount (subject to the availability of funds)
2. Increasing or decreasing the purchase price
3. Adding or deleting Borrower; however, one of the original Borrowers must remain with the reservation.
4. Changing from one loan type to another (i.e., conventional to FHA).
5. Adding or changing Downpayment Assistance.
6. Request to change the rate and fee option corresponding to the date of original reservation.

If there is a change in the property being purchased (or the lot number for new construction), the Mortgage Lender must cancel the original reservation at the old address and re-register a new reservation at the new address.

If a Pre-Closing Compliance file has already been submitted for the old address, please submit new purchase and sale contract, loan application, and new Pre-Closing Compliance Review Checklist with new WSHFC reservation number.

Expired Reservations

The Commission's loan reservation policy authorizes the Lender to make a reservation for funds on behalf of the borrower(s) for a set period of time (lock period). After completing the reservation, the Lender may not cancel and re-reserve funds to obtain a lower interest rate. This policy applies to both existing and expired loan reservations. Extensions to existing or expired reservations are at the sole discretion of the Commission.

Extensions to an expired reservation will be based on original rate lock price plus appropriate extension to bring the reservation current. Extension fees will apply.

In the event the purchase and sale contract is terminated, the Lender must cancel the loan reservation immediately. If the borrower subsequently enters into contract for a different property, the Lender may complete a new reservation for funds subject to current interest rates.

Duplicate reservations are not allowed.

Cancelled Reservations

Lenders can cancel their reservation on-line until a file is submitted for pre-closing compliance approval and then afterwards by emailing homedocs@wshfc.org. Once a loan reservation is canceled, the funds previously reserved through the Mortgage Lender for that Borrower must be returned to the pool for use by the next applicant. If a lender needs to reserve funds for the same property, the lender must wait at least 60 days from the date of cancellation in order to re-reserve or the original lock will be reinstated and loan must be delivered within the original lock period or extension fees will apply. The funds cannot be transferred to another of the Mortgage Lender's files.

Reservation Transfer

At the Borrower's option, a Mortgage Lender may request that a reservation be transferred to the requesting Mortgage Lender from the Mortgage Lender who made the original reservation. This can be done by submitting a letter from the Borrower to the Commission. The requesting Mortgage lender must include a cover letter that outlines the situation and includes their certification number, bank number, and branch number and a letter from the Borrower requesting the transfer. This must be done prior to the original Mortgage Lender canceling the reservation. Only one transfer per Borrower is allowed. A Borrower may not have more than one reservation any one time. A reservation may not be transferred to another borrower or to another property.

Waiting List

Reservations received by the Commission after all Program funds have been allocated will be placed on a waiting list. Mortgage Lenders are encouraged to use the waiting list to insure applicants will be first in line for the next available funds and/or be moved up on the waiting list as reservations are canceled or rejected. A wait list confirmation letter can be printed from the system to show Borrower is on wait list.

9 - PRE-CLOSING COMPLIANCE REVIEW & APPROVAL

Edited 03/01/2018

Purpose of Pre-Closing Compliance Review

One of the principal reasons for the pre-closing compliance review process is to provide Mortgage Lenders a level of assurance that, given no changes in the basic conditions of the transaction, the Mortgage Loan is qualified for purchase by the Master Servicer.

This pre-closing review process is in place only as a service to Mortgage Lenders and does not automatically guarantee that loans will be purchased. Additionally, if a loan is purchased and is subsequently found not to meet Program requirements, the Commission has the authority to request that the Mortgage Lender repurchase the Mortgage Loan.

Following is the procedure for Mortgage Lenders to use when submitting a Mortgage Loan for approval to close:

Submission of Loan File

Once the Mortgage Lender obtains all items as listed on page 15.13.1 of the Pre-Closing Compliance Review Checklist Mortgage, the Mortgage Lender is strongly encouraged to submit the file early in the process to the Commission for review. If using downpayment assistance, all items on form 15.13.2 are needed prior to final compliance approval. However, the file can initially be submitted with the items on page 2 to follow. The Commission does not require full loan approval by the Mortgage Lender prior to submitting the file for compliance review.

Files must be submitted in the order specified on the Pre-Closing Compliance Review Checklist (Form 15.13). This Checklist is located in the Forms section of this Program Manual.

Where to Submit Files

Please upload Mortgage Loan file prior to closing electronically to Emphasys.

Please note: The Commission does not accept electronic “secured” files requiring passwords.

Review Procedure

Each Mortgage Loan file will be reviewed approximately within two business days by Commission staff for compliance with Program requirements. [The results of the review will be posted at this link.](#)

If a file is suspended, the loan stage will be updated to show as “Pre-Review/Incomplete” and the suspense conditions will be posted on our on-line system. When the file is approved to close the loan stage is updated to “Committed” and the Mortgage Lender can review and print our loan approval and conditions from on-line system. The Commission’s on-line system interfaces with the Master Servicer’s system eliminating the need for Mortgage Lenders to provide them a copy of the approval.

insurance. RESPA requires impound/escrow accounts to be established using the aggregate analysis method.

With the aggregate analysis method, the total disbursements of all items impounded (such as property insurance, mortgage insurance, and property taxes) is calculated, and then divided into 12 equal installments. The Mortgage Lender must also include an additional 2 month reserve for all escrow items with the exception of MI.

When an escrow account is established at the time of loan closing, the Mortgage Lender must provide the borrowers a disclosure, detailing the anticipated disbursements from the impound/escrow account for the 12 months following the loan closing. The disclosure also states the amount of the monthly impound/escrow payment that will be made by the borrowers. If the exact amounts of the disbursements are not known at the time of loan closing, the statement is to be prepared using the Mortgage Lender's best estimates. Although Mortgage Lenders have the option of analyzing the impound/escrow account at closing or within 45 days of settlement Lakeview Loan Servicing requires a copy of the initial escrow account statement.

Timing and Delivery of Closed Loans

The closed mortgage loan package is to be received by IHFA within 10 days of loan closing.

1. Lenders must check the closed loan package to confirm all items listed on the Funding Checklist are included in the package. Loans will not be funded if any of the items on the checklist are missing or incorrect.
2. All First Mortgage loans purchased by IHFA will require mandatory registration with MERS. No assignments will be accepted for first or second mortgages. Lenders must transfer all applicable rights in MERS to IHFA immediately after purchase.
3. Utilize the provided IHFA Delivery Checklist as found on the Commission's Website at <http://www.wshfc.org/sf/HKforms.html>

Upon completion of the closed loan file compliance review, the mortgage loan(s) will be funded if the file is complete and is in compliance with all requirements. Closed loan packages will not be funded until all required fundable documentation has been received and all compliance issues cleared.

Penalties Withheld From Funding

Lenders must deliver the complete closed loan package to IHFA as soon as possible after loan closing. A loan is considered to be in a fundable condition when a complete closed loan package is delivered without errors or missing documents. Also, loans with delinquent payments will not be purchased.

All loans must be purchased by IHFA within 60 days of the note date. Original notes will be returned to the lender's warehouse bank as requested by the lender for loans that will not be purchased.

Conditions required prior to loan purchase or separate follow up documentation must be uploaded in Lender Connection.

The most common curatives occur for: a missing note; incorrect endorsement to the note; incomplete copy of the Mortgage/Deed of Trust, missing Riders to the Mortgage/Deed of Trust; missing final Closing Disclosures; missing or incomplete hazard policy/declaration page, tax, mortgage insurance, or flood information.

First Payment/Notice of Assignment

Lenders are responsible for servicing the loan until purchased by the master loan servicer to include the payment of all required escrow disbursements for each loan during the period from closing to purchase.

The originating lender retains the loan servicing rights and benefits until the master loan servicer purchases the loan. The originating lender will perform all servicing duties until that time.

Servicing and benefits rights transfers to the master loan servicer at the time of loan purchase. IHFA will send the borrowers a welcome letter with payment instructions at the time of loan purchase.

IHFA assumes Seller will collect scheduled payments that have already become due. For Loans purchased fewer than 15 days prior to the next payment due, IHFA will amortize down one more payment so the scheduled purchase balance is lower than the current unpaid principal balance. A pay history is required after two payments.

For scheduled balance Loans funded between the 1st and 15th day of the month, the Effective Date of Transfer is the 1st day of the following month. For Loans funded after the 15th day of the month, the Effective Date of Transfer is the 1st day of the second month following the Sale Date. It is Seller's responsibility to continue servicing the loan and collecting payments up to the Effective Date of Transfer and to forward all curtailments received during this time.

Hazard Insurance Premium

A copy of the Declaration Page showing the first annual premium is paid in full should be included with the Loan Closing Package. IHFA will also accept a copy of the binder with the policy number and paid receipt.

Flood Insurance

Please see [Section 2](#) for additional information.

FHA Monthly Insurance Premiums

IHFA requires the lender to be responsible for all monthly MIP payments for the months the lender is collecting the payment. IHFA will be responsible for making the monthly insurance payment for loans purchased when the first payment due date on the Note is also the first payment due to IHFA.

Conventional Mortgage Insurance Premiums

The first monthly mortgage insurance premium on a conventional loan is due at the time the loan closes. Mortgage Lenders are responsible for the initial monthly premium.

Post-Closing Details of Origination Charges: Items Payable in Connection with Loan

The Mortgage Lender must provide a breakout of all items payable by the buyer and seller as shown on the Post Closing Review Checklist (15.20.1-2).

13 - DOWNPAYMENT PROGRAMS

Edited 09/01/2020

Relevant Search Terms: down payment assistance, downpayment assistance, DPA

Downpayment Assistance Programs

These guidelines apply to all downpayment assistance loans offered at the Commission

Details for Opportunity Downpayment Assistance Program can be found in [here](#).

Program Description

All downpayment assistance programs offered at the Washington State Housing Finance Commission are community second mortgages and must be used in conjunction with a House Key or Home Advantage first mortgage. Each Downpayment Assistance program offered at the Commission receives funding from different sources including, but not limited to federal funds (HOME, CDBG), state funds, city funds (housing levy) and the Commission's Program Investment Funds.

Additional guidelines per the individual program manuals also apply and are required as per the source of funds for the downpayment assistance program.

Maximum Income Limit, Loan Amount & Mortgage Details

Please refer to the individual downpayment assistance manual for terms.

Downpayment assistance program loans are not assumable.

Minimum Loan amount of assistance is \$1,000.

When the borrower is required to make payments, the late charge is 4%.

Program Eligibility

1. First Mortgage must be a Home Advantage or House Key FHA, Fannie Mae HFA Preferred, Freddie Mac HFA Advantage, USDA Rural Development, VA, or HUD 184 Loan.
2. Income levels must meet the downpayment assistance programs' requirements (see limits in each manual); Please note: Income limits for the 1st mortgage will be different. The Borrowers must meet both 1st and 2nd and income limit guidelines.
3. The Borrowers must be a first time homebuyer (have not owned and occupied in the past 3 years) or purchase in a Targeted area of the state. Lender to provide 3 years tax returns and current credit report for all borrowers.
4. The Borrowers must demonstrate a need for assistance with the exception of the Home Advantage dpa program at 0% interest.

Combined Loan to Value (CLTV) and Total Loan to Value (TLTV)

FHA, HUD 184 – Cannot exceed 100% of FHA's acquisition cost. FHA's acquisition cost does not include 2nd mortgage fees.

Fannie Mae HFA Preferred or Freddie Mac HFA Advantage – CLTV up to 105%.

VA – Cannot exceed 100% of the lesser of sales price or Notice of Value, plus eligible closing cost.

USDA Rural Development – Maximum LTV as per current USDA guidelines.

Reserves

The Borrower(s) may keep, but are not required to have up to 6 months PITI (including the projected payment on the downpayment assistance loan if applicable) or \$10,000 (whichever is greater) in liquid checking and savings account after loan closing.

Buydowns

Lenders may not offer rates lower than the ones published on our Website and reserved on the Emphasys system. Further buydowns are not allowed.

Reservations

Reservations for downpayment assistance loans are usually made on the Emphasys system at the same time as the first mortgage loan reservation. Funds are reserved on a first-come, first-served basis. Loan originators may reserve the maximum allowable amount per the program guidelines for their borrower since cash to close cannot be exactly determined at loan reservation. A reservation for downpayment assistance can be made on-line at any time prior to submission of a pre-closing compliance package. Increases in the reservation amount are subject to the availability of funds. If funds are not available, our Website will indicate if we are taking a wait list.

Income Calculation

The source of funding determines how income is calculated for the program. Please refer to the correct downpayment assistance manual for the type of income used for the program.

Compliance Income

Please refer to the individual downpayment assistance manual to see if the downpayment assistance program uses compliance income.

Current downpayment assistance programs using compliance income include Seattle, ARCH, Tacoma, Pierce County, and Bellingham DPA.

The calculation used to determine compliance income is the same as the calculation used to determine compliance income for the House Key first mortgage as shown in [Section 3](#) of this manual which uses future anticipated income for all household members age 18 or over. Please contact the Commission if you need assistance calculating compliance income.

After the applicant's income for the Second Mortgage has been calculated, refer to the Maximum Income Limits chart in the individual downpayment assistance manual to determine if the applicant is at or below the income limit.

Credit Underwriting Income

Please refer to the individual downpayment assistance manual to see if the downpayment assistance program uses credit underwriting income.

Current downpayment assistance programs using credit underwriting income include Opportunity, Veterans, and HomeChoice DPA.

When using Credit Underwriting Income, the income for the downpayment assistance program is different than the income used to determine income for the House Key Opportunity first

mortgage which uses household “Compliance” income as shown in Section 3 of the House Key Manual. For downpayment assistance mortgages using Credit Underwriting Income only, income is calculated according to the investor’s (FNMA, FHA, VA) underwriting guidelines. The lender should then refer to the Maximum Income Limit in the manual to determine if the borrower is at or below the income limit.

A copy of the underwriter’s signed income worksheet or loan approval reflecting final income figures must be included in the Pre-Closing Compliance Review File.

Calculating Downpayment Assistance Loan Amount

The downpayment assistance loan amount is the lesser of:

1. Amount of need as established by the Needs Assessment Form (based on maximum financing or based on gap financing) calculated by the underwriter; or
2. Maximum loan amount per program

Needs Assessment Form

The underwriter will calculate the Needs Assessment Form. Form located in the Forms section of the House Key Manual at underwriting approval to determine the exact amount of funds needed. The Needs Assessment Form should be completed using a **current** VOD or bank statements and should be adjusted as the borrower’s situation changes.

The underwriter will determine the down payment, closings costs, additional costs, and pre-pays as shown on Needs Assessment Form. These figures should match 1003 and underwriter’s loan approval. The underwriter determines the amount of cash required by the Borrower to close the transaction. Stocks, bonds, IRA’s, 401(k)s, mutual funds, life insurance policies, annuities liquid assets, and any other type of account causing a penalty in order to access are not included in the calculation.

The Mortgage Lender will then subtract out seller and Mortgage Lender contributions. The Mortgage Lender then determines liquid assets available to borrower in checking/savings accounts. The Mortgage Lender will list out separately gift letters if gift has not already been verified in checking account. The earnest money, lender deposits and paid out of closings should be listed separately if the money has cleared the bank based on VOD or bank statement. These figures should match the 1003 and underwriter’s loan approval.

Subtract the allowed liquid reserves from the total amount of verified assets available at underwriting approval. If the amount is less than or equal to 0 enter “0” on Line F of Needs Assessment Form.

The underwriter calculates the shortage of cash to close based on the total cash required to close (Line E of Needs Assessment Form) from Total Assets Available to Close minus up to 6 months PITI or \$10,000 whichever is greater (Line F of Needs Assessment Form).

- Downpayment Assistance funds are used for downpayment, closing costs, and pre-pays.
- Downpayment Assistance funds cannot be used to buy either the first or second loan down.
- Downpayment Assistance funds cannot be used to pay off bills or liens of the borrower. If the borrower is required by underwriting to pay off bills in order to qualify, these items must be paid by the borrower. Please provide a copy of the loan approval with the total of the bills to be paid by the borrower as required by underwriting. This amount must match the amount on the Closing Disclosure (as applicable).
- Downpayment Assistance funds cannot be used to replenish the Borrower's bank account if they do not have reserves in the bank after closing.
- Downpayment Assistance funds cannot be used to pay for repairs to property. Furthermore, if Borrower chooses to pay for repairs from their own funds, escrow holdbacks must be for an exact bid from contractor. In order to avoid cash back, escrow cannot over collect borrower funds (i.e. 1/ 1/2 times). Please refer to Page 2.5 (Escrow Holdbacks) and Page 4.2 (Acquisition Cost).
- Downpayment Assistance funds cannot be used to pay the difference between the sales price and the appraised value.
- Downpayment Assistance funds cannot be used to pay for short sale negotiation fees, attorney fees or any other similar fees.

In order to avoid cash back issues at closing, the Mortgage Lender should re-calculate the Needs Assessment Form after receiving an estimated closing statement from the Escrow Company. Adjustments should be made to the loan amount if necessary **prior** to releasing loan documents. If in doubt, it is always a good idea to reduce the loan amount slightly than risk the chance of the borrower receiving cash back.

On the **Needs Assessment Form**, if the borrower's front-end ratio (PITI/Income) is less than 25% based on the appropriate income for the downpayment assistance program, the underwriter will decrease amount of subsidy to bring up the front-end ratio to acceptable assistance base levels for gap financing. The Borrower must qualify with the 25% ratio test in order to be eligible for gap financing. If the borrower fails to meet the ratio test, then the underwriter must proceed using the appropriate maximum loan-to-value (LTV) allowed for the first mortgage type. In other words, on an FHA loan, the minimum downpayment is 3.5%.

Cash Back

The intent of the Downpayment Assistance Loan is to provide the funds necessary to close the transaction and not to provide cash back to the borrower.

In no event will downpayment assistance funds result in cash back to the Borrower. Mortgage Lender should advise Borrower upfront that if a check is presented to them at closing when using a downpayment assistance mortgage funds, and the check exceeds the amount(s) that they originally paid in to the transaction via required earnest money and lender deposits, that they should refuse the check. The Borrower should also refuse the check if the amount of the total refund plus their current liquid assets in the bank will result in more than 6 months PITI or \$10,000 whichever is greater in reserves.

In the event that there is a refund to the borrower at closing and the refund plus the Borrower's remaining liquid assets exceed 6 months PITI or \$10,000 whichever is greater, the Lender may apply the refund amount towards the principal balance of the 2nd mortgage or lower the amount of assistance and redraw the loan documents. If it is then determined that cash back was given to the Borrower, the refund will need to come from the borrower, the Master Loan Servicer will not purchase the Mortgage Loan unless the second mortgage note is lowered accordingly and within the allotted time frames.

If using ARCH, Tacoma, Pierce County or Bellingham downpayment assistance, the borrower may not receive ANY cash back at closing, including earnest money or funds paid in, as per HOME fund rules, excess funds must be used to pay down the DPA loan.

Closing and Delivering the Loan

Program Application Fee

There is a \$40.00 program application fee for all downpayment assistance loans. This amount will be subtracted from the wire sent to loan closing. This fee must be disclosed on the second mortgage Closing Disclosure.

Funding and Delivery

Edited 05/18/2020

Participating lenders fund the second mortgage at loan closing. The funding and delivery procedures are as follows:

1. Second mortgage Notes and Deeds of Trust are originated under the Commission's name;
2. IHFA will purchase loans with a copy of the Deed of Trust with the original recorded copies to follow.
3. Interim Interest is not collected at closing on downpayment assistance loans with deferred payments.

FHA Insurance Award Letter

The policy must contain a guaranteed replacement cost endorsement. Binder must indicate the first loan be payable to the loan servicer using the standard Mortgagee clause as written in Section 2. [Please refer to this section for more information.](#)

Title Insurance

Title insurance coverage is required for the first mortgage only. The second mortgage appears as a lien of record in second position when the policy is issued. As title insurance is not required for the second mortgage, the lender is not allowed to charge a title fee on the second mortgage.

Payment Statement

On the second mortgage, the Borrower receives a separate monthly statement from IHFA.

Payoff of Second Mortgage

All second mortgages are due and payable upon sale, refinance, early payoff of the 1st mortgage, no longer occupy as primary residence or transfer of the property as shown in the note and deed of trust for the downpayment assistance program, whichever comes first.

If the Borrower(s) refinances, the second mortgage must be paid off in full. The Commission will not subordinate our second mortgages.

The Borrower(s) should contact IHFA on their first mortgage for payoff information and their second mortgage as applicable.

TRID Guidance

Please follow your own company's compliance guidelines for TRID and RESPA. The loan is subject to repurchase if the loan is not eligible for pooling or is audited and found to not be in compliance. As a courtesy to our lenders, we have Loan Estimates and Closing Disclosures if your system is unable to generate them. You are also welcome to use your own forms as applicable.

These forms are made available as a courtesy to our lenders to use at lender's own discretion. Please feel free to use these disclosures or those provided by your Lending Institution. The Commission makes no representation regarding the accuracy or compliance of these forms with regulatory requirements. Please check with your own company's compliance department regarding whether these forms satisfy your compliance requirements.

By using these forms, you are agreeing that the Commission and its employees assume no responsibility for, and that you will hold the Commission and its employees harmless from, any claims or expenses that may be related to or arise from any violation of law arising from your use of these forms.

In most cases, a Loan Estimate and Closing Disclosure will be required on amortizing loans, loans with deferred interest with an interest rate, and loans with deferred payments at 0%, but that is up to your own company's interpretation of TRID. If the Commission is uncertain regarding the documentation presented we may request a letter from your corporate to verify your loan closing documents meets TRID compliance guideline.
